

CLIMB

at Your Next Recruiting Event

Use the Scouterhorn mobile climbing tower to challenge your Scouts and attract new members.

The NCAC's 24-foot Scouterhorn mobile climbing tower is a Cub favorite that supports people of all ages weighing 40 to 250 lbs. You can set it up in a parking lot or field to create a highly visible, exciting activity with a loud horn that draws attention from a distance. Four climbing routes with automatic cable belays enable you to support many climbers in a day. Contact NCAC.COPE@gmail.com for details.

Training: Your leaders can become trained tower operators by completing [online training](#) and hands-on assessments. Contact NCAC.COPE@gmail.com to schedule an assessment.

Reservations: Contact [Stephanie Messenger](#) at [Camp William B. Snyder](#) to reserve the Scouterhorn. Rental fee \$165 when used at CWBS, \$275 off site.

Permits: In [Maryland](#) you must file a permit [request](#) at least 30 days before your event. In [Virginia](#) permits are issued by local building departments. Find contact information for a department official near your event location on this [list](#) or with this [interactive map](#). In DC call [DCRA Permits](#) at 202-442-4589.

Transportation: Requires 4800 lb. towing capacity. Contact your [District Executive](#) to arrange towing with a council truck. If you supply the truck, be sure to have a 2 5/16" ball bumper pull hitch and 7-Prong Electrical Plug
