# The Agenda In-House AV System

## Crew

- Full competent English speaking crew
  - With advance notice, crew can be arranged speaking the following languages:
    - Hindi, Urdu, Russian, Arabic Tagalog and Malayalam, plus all others, given a bit more time!
- Dedicated HOD technicians
- Support crew as required

## Options & Extras

We have a full competent facility at our disposal, ranging from smoke machines and confetti cannons, to IMAG screens left and right of the stage, plus backline suitable for the worlds most discerning musicians. Any or all, of the house system can be upgraded, replaced as per your Artist rider. Simply send us the technical brief and we will tailor a custom made quote as per your exact requirements.

Consumables such as batteries and gaffa tape can be supplied upon request. All items requiring batteries such as radio mics etc are covered under our supply, but for items not supplied by The Agenda then please allocate a budget, or bring with the crew. No additional plug boards or extension cables will be supplied unless notified in advance as part of the rider.

All power is 220V @ 50hZ, with UK 3 pin sockets, or CeeForm 16A single phase sockets.

Additionally, staging, backdrops, printing and all decor items can equally be supplied and managed cost effectively, to help deliver a world class event. We're here to help your event. Engage with us on your requirements and we'll ensure it happens!
