First Program Service Accomplishments Description

Description

accessing the resources available in the homeless crisis response system. Through coordinated entry, a CoC, though KSHC, ensures that the highest need, most vulnerable households in the community are prioritized for services and that the housing and supportive services in the system are used as efficiently and effectively as possible. Ideally, coordinated entry can be the framework that transforms a CoC, from a network of projects making individual decisions about whom to serve, into a fully integrated crisis response system. By gathering information through a standardized assessment process, coordinated entry provides a CoC with data that it can use for system and project planning and resource allocation. In addition to being the CoC lead and CES lead for the KS Balance of state Continuum of Care, KSHC serves as the Homeless Information Management System (HMIS)

Administrator. An HMIS is a local information technology system used to collect client-level data and data on the provision of housing and services to individuals and families at risk of and experiencing homelessness. As the HMIS System Administrator, KSHC is responsible for project set-up, grant management and administration, HMIS vendor relations, HMIS user relations, capacity building, strategic planning, and policy and procedure development. Lastly, KSHC also serves as the Johnson County Continuum of Care HMIS Lead and System Administrator. With us serving in these roles, other partners such as Aetna/CVC, Healthy Blue, Douglas County, United Health Care and the Kansas Department for Aging and Disability Services support our efforts by funding us to expand our outreach and services across the Balance of State Continuum of Care.
