TAKING BACK

# AMERICA'S CHILDREN

YEAR END REPORT 2021 • VISIONARY REPORT 2022

Dear PJTN Board and Advisors,

Despite the challenge of the culture all around us, **now is not the time to retreat!** Yes, I'll agree that the events of the past twelve months have found our country divided at a level not seen since the Civil War. **The war on education, the future of our children and the constitutional rights of parents have set a somber tone over those concerned with preserving our Judeo-Christian values.** It has attempted to dim the bright promise of freedom in our Constitutional Republic that we have cherished and hoped to preserve for our children.

At PJTN, **we have the strategies and are already in the process of executing them in a tactical ground game: state-by-state, county-by-county, school district-by-school district.** We saw results in Loudoun, Virginia in the fall where parents successfully implemented a plan that took down the school board and replaced the members with like-minded patriots. **This is the model birthed at PJTN over a decade ago in successfully flipping a school board in Williamson County.**

#### **PJTN's Strategy to Take Back America's Children:**

**This media campaign, now entering its third year nationwide, is receiving a tremendous response.** Recently in a weekly strategy meeting, our team shared my calendar for the first quarter of 2022, and it is full of meetings in Florida, California and Tennessee. **Following our internal review and evaluation in Q4 2021, we made a strategic decision to focus our work on areas with the greatest potential for impact. In addition to the obvious attempts to "hijack" our next generation of leadership in America through a corrupted educational model, PJTN shines a light behind the dark curtain to reveal the early roots of antisemitism that are being force-fed to our children in grades as early as pre-school. Unlike other organizations suited up for the battle, we are waging a war on antisemitism where it begins: in America's classrooms, grades K-12.**

**I hope you will take this opportunity to review our accomplishments and share the vision of success we have laid out for PJTN in the twelve months ahead. Please review our strategies and our goals. Following your review, I welcome your questions, comments and suggestions.**

**The enemies to our values and the future of our children are in positions of power as never before. We count on your financial support to propel our mission at PJTN.**

I appreciate your consideration and prayerfully hope PJTN will be a priority in your philanthropy in 2022.

*Laurie Cardona-Moore*

## The Problem:

As the Biden era has brought radical change to our nation, we are witnessing a media/academia/government takeover determined to overthrow America's Judeo-Christian foundation. Their playbook borrows from Germany in the 1920s. Hitler wrote in *Mein Kampf* that "whoever has the youth has the future." Our "youth" are now indoctrinated with the new "woke" ideology - lies of 'white privilege,' Marxist Critical Race Theory (CRT), revisionist history, Holocaust revisionism and the antisemitic, racist Black Lives Matter (BLM) movement. Textbooks and instructional materials have become anti-American, anti-West, anti-Israel and anti-Judeo-Christian. This is taking place across all public schools and all government agencies. More recently, the Attorney General of the United States, Merrick Garland, at the request of the National School Board Association, drafted a memo to federal law enforcement officials and prosecutors between themselves and local law enforcement to address threats against local education officials including superintendents, board members, educators and staff by parents and citizens without evidence to substantiate this claim. Local school superintendents and local school boards repeatedly block attempts to introduce K-12 classrooms to unbiased, objective and accurate textbook content and instructional materials related to pornography, Islam, Judaism, Israel, the Arab-Israeli conflict and U.S. history. Americans of various faith traditions, and all people of conscience, are now asking... how can we effectively confront this tsunami of antisemitism, anti-Americanism, silencing of dissent and the destruction of our Judeo-Christian values by America's progressive Marxist elite?

## The Solution: Track 1

PJTN has drilled down to the "focus point" of reclaiming education in America: Civics and Holocaust Education in America's classrooms. Our work in Florida in writing educational standards is a beacon of the success that is replicable in all 50 States. Florida Gov. Ron DeSantis' administration has truly set the gold standard for curriculum standards in our nation, and PJTN played a major role in this process.

Our three-year focus will include the three largest purchasers of curriculum: Florida, Texas and California. Our process includes a series of steps that are 'hidden' deep into the decision-making of education curricula standards: PJTN has a new process and new experts on our team to ensure we help every county/state to review, revise and submit recommendations to lawmakers and education decision-makers.

From the statehouse to the local schools and communities, we will follow up, door-to-door if required, to stop antisemitism, anti-Judeo-Christian, Holocaust revisionism and anti-American propaganda from seeping into our children's curricula and becoming normalized for another generation. We are not marching behind placards or breaking down school board doors.

Gov. Ron DeSantis remarked about revising Florida's curriculum to block common core and CRT, "The only reason I'm doing this is because someone showed me what's going on in the textbooks." That person was Laurie Cardoza-Moore.

We are behind the scenes building relationships with state legislators, state departments of education and governors and our work will not end with the adoption of Civics and Holocaust standards. Phase 2 of the initiative will require reviewing textbooks, instructional materials, supplemental materials and library books to ensure they follow state standards, are accurate, unbiased and reflect the values of the states, as well as their state and U.S. Constitutions.

This is a comprehensive agenda as the gatekeepers of our children's education and our nation's future.

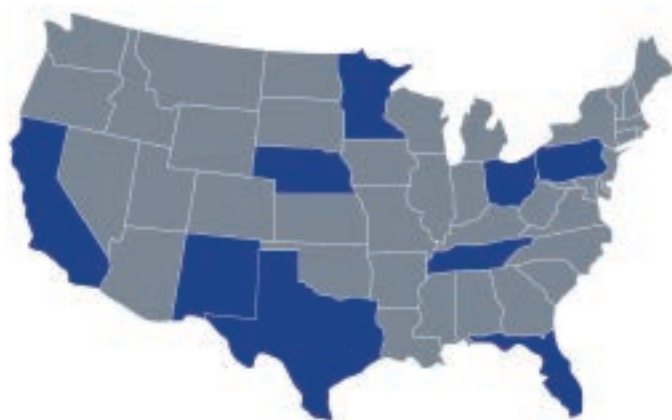

We will work with local communities to dismantle and overturn "woke" school boards and Marxist-leaning ideologies in our children's classrooms.

**PJTN's groundbreaking county-by-county, state-by-state initiatives are not a "one and done!" This will be an ongoing effort until we reach all 50 states.**

Thus far, PJTN's successful initiatives have had the potential of impacting more than 20 million K-12 students.

State-by-State breakdown of students:

- Florida - 1.8 million
- Tennessee - 1.3 million
- California - 6 million
- Ohio - 1.7 million
- Texas - 5 million
- Minnesota - 850 thousand
- Pennsylvania - 140 thousand
- New Mexico - 340 thousand
- Nebraska - 316 thousand

**Summary:**

We are focused on engaging the grassroots, local and state decision-makers through the 'sweet spot' of Civics and Holocaust standards for the next generation of education in America. The standards are the key to combating the disinformation in curricula.

**Milestones:**

Gov. Ron DeSantis remarked about revising Florida's curriculum to block common core and CRT, "The only reason I'm doing this is because someone showed me what's going on in the textbooks." That was Laurie Cardoza-Moore.

**The Solution: Track 2**

PJTN is working the niche that gives us the greatest impact: protecting Jews in America from antisemitism and Holocaust revisionism by protecting the Judeo-Christian history of America in K-12 curricula from the slippery slope of antisemitic, ethnic and CRT curricula.

Using a rigorous K-12 Civics and Holocaust state standards review process, PJTN uncovers bias and works with state public education decision-makers to remove and replace offensive antisemitic, anti-Israel and Holocaust revisionist curricula. Principally, we are educating local and state decision-makers as a Judeo-Christian voice demanding that American public schools educate present and future generations about the Holocaust... the horrific and unique genocide of the Jewish people.

Our unique approach touches every student, parent and grandparent simultaneously as PJTN is present in the lives of families who are shocked at the enormity of the task they face. We achieve this by:

1. **Engaging in grassroots and state meetings and conversations about Civics and Holocaust curriculum.**
2. **Equipping PJTN Watchmen and volunteers with the tools to educate and activate citizens through our original award-winning media available on our PJTN online platform and as well as other multiple media outlets worldwide.**
3. **Working with state legislatures to revise the standards.**
4. **Following, most recently, the adoption of our recommendations for Civics and Holocaust standards in Florida, PJTN was contacted once again by the FL Department of Education to assist them in finding qualified educators and administrators to execute their aggressive agenda to implement Governor DeSantis' new Civics Literacy Education Initiative.**

Going forward we are steadfast in our mission: We are fighting back against the omission of historical facts regarding the role Jews played in the founding of this nation, as well as the normalization of antisemitism in American K-12 education, curricula and schools. We fight to keep the Holocaust represented and taught as the unparalleled event that it was. We fight to protect against those who use the strategy of antisemitism to hurt America, America's children and demonize the State of Israel.

**PJTN's Playbook  
Grassroots/Local Level:**

PJTN is a locally driven organization that provides a complete library of educational materials that expand our impact and message.

Local for us means: We are on the phone, at a meal, at an event or in a meeting with local parents and citizens, local elected officials, Jew and non-Jew, who are seeking advice about how to fight back against the rise of Jew-hatred in their communities.

Many donors believe that this work is accomplished by big national organizations like the ADL or the progressive-only JCRCs, but nothing could be further from reality. The traditional Jewish organizations that fought antisemitism over the last 50 years have morphed into 'the system' run by politicians, spending their money on pollsters, CNN, MSNBC, etc. The expected trajectory of most of these former 'watchdogs' is to join the antisemitic, racist BLM movement, the 1619 project and the Biden-Harris Iran narratives.

Local also means that we recognize that our churches are ashamed of their silence in light of today's raging antisemitism and Marxist ideology. Our model is local outreach and engagement from the PTA and homeschooling to churches and all people of conscience. Modeling a zero-tolerance policy for blaming the Jews is our way forward.

Local means that we have the strategic relationships established within-the-market media that has the potential to build to national attention and awareness for our agenda. As our organization is woman-led, we are perfectly positioned to step up, convene worried people and groups and educate them to come together to fight anti-Judeo-Christian values, antisemitism and anti-American sentiment and thereby rebuild their local relationships with one another.

For the past 24 months, we have been inundated by people who are becoming more fearful. Moms are overwhelmed. Grandparents are truly despairing about the condition of the nation and their grandchildren's future. We want you to know how these conversations of fear end: after speaking to us; hearing about our battle scars; death threats and fear, we share our hard-fought victories to inspire our friends to engage locally and join PJTN on the frontlines as we mobilize to take back local control of their communities, one county, one state at a time.

Opening 2021 with the rise of antisemitism in the headlines, the White House under siege, the majority of classrooms empty and the world in COVID chaos, PJTN went forth with a renewed commitment to face the issues of our time - a commitment to provide strategic leadership and moral courage on the frontlines of the issues that confront Christians, Jews and all people of good conscience who are concerned for the future of our country, our children and grandchildren, our Jewish brethren and the Judeo-Christian values that have established and made America great. Our mission was state-by-state:

**PJTN VICTORY FOR JUDEO-CHRISTIAN VALUES IN EDUCATION AS REVISED CIVICS AND HOLOCAUST EDUCATION STANDARDS ARE APPROVED IN FLORIDA**

Investing two years of research, commitment and considerable time in fighting backlash from opposition, Laurie Cardoza-Moore, Founder and President of Proclaiming Justice to The Nations announced in July 2021 that both Civics and Holocaust Standards submitted by her organization were approved for adoption and use in Florida classrooms. She noted on the vote, “Our work in preserving America’s Judeo-Christian heritage and values in our children’s Civics education amid the national push towards Critical Race Theory (CRT) will benefit the more than 1.8 million students in Florida classrooms - as will the Holocaust Education materials that will be a national gold standard for Florida.”

These newly adopted Holocaust and revised Civics Standards will ensure that our children in Florida know the Judeo-Christian foundations of the birth of this incredible nation. Governor DeSantis sent a message loud and clear, that revisionist history, anti-Semitic content or Holocaust revisionism would not be tolerated in Florida classrooms. PJTN’s long term involvement in this success brought a national message to media: “We at PJTN, are humbled and grateful to have been invited to collaborate on this important endeavor for the future of the State of Florida and the United States! Well done Gov. DeSantis!”

**AN APPOINTMENT IN TENNESSEE: LAURIE CARDOZA-MOORE CONFIRMED TO SERVE ON TENNESSEE TEXTBOOK & INSTRUCTIONAL MATERIALS QUALITY COMMISSION.**

Tennessee Speaker of the House Cameron Sexton championed Laurie’s 2021 election to the influential Committee overseeing the content of textbooks and curriculums being used within Tennessee classrooms. The PJTN values she brings to this Commission will influence the 147 school districts and more than 1,700 public schools within the state. Rabbi Pesach Lerner, president of the Coalition for Jewish Values, the largest Rabbinic Public Policy Organization in America, noted in a letter of support of Laurie’s election to the Commission: “Laurie Cardoza-Moore’s concern for children’s education goes back years and it is thanks to her efforts that a textbook with minimized and even justified anti-Semitic terrorism is not being used today to indoctrinate Tennessee children. We believe the children of Tennessee will greatly benefit from her work on the Commission. Laurie noted in accepting the post, “I will vow to help ensure, protect and enrich America’s next generation of leadership: Our children. The future leadership of America begins with the quality of materials used in their classroom.”

**PJTN CALIFORNIA AGENDA: THE BATTLE GOES ON**

Since our earliest days of engagement with Governor Gavin Newsom in 2018, PJTN has stood throughout 2021 with hundreds of California and out of state allies, concerned Rabbis, more than 75 religious and civil rights and sister organizations in support of the Jewish community in protesting the progressive passage of the controversial anti-Semitic, pro Critical Race Theory, Ethnic Studies Model Curriculum (ESMC). Launching a national PJTN petition against ESMC, our message was central to a major national press campaign surrounding AB-101 in 2021. Laurie noted, “California is the incubator for liberal educational ideas that go viral across the nation. The vile hatred of antisemitism poses a threat not only to the Jewish students and the Jewish community as a whole, but the next generation of our leadership in America and their future support of Israel.”

Going forward, all PJTN hands remain on deck for the California educational agenda! We are actively working to boost the recruitment of more boots on the ground—both PJTN Watchmen, and volunteers, as well as a State Director for the organization to better direct concentrated statewide efforts. The PJTN model worked in February of 2022 with parents rising up to execute the shocking recall of the liberal “woke” school board in San Francisco. As we noted in a PJTN press campaign: “The Dominoes Are Falling!” A “Taking Back America’s Children” Summit is being planned in California for 2022.

**DID YOU KNOW?**  
PJTN is mobilizing to contact the 35 governors in state houses across America who have state laws against boycotts against Israel in place.

**PROCLAIMING JUSTICE  
TO THE NATIONS**  
PROCLAIMING JUSTICE PODCAST

Throughout 2021, PJTN’s voice stepped to a higher media platform with the continuation of our national podcast hosted by Laurie and produced by the in-house creative team. “Proclaiming Justice” is a 30-minute weekly broadcast with a mission of shining the light of truth in media. It offers timely and topical themes and it features Laurie’s insights, as well as the voices of major influencers discussing a broad range of topics of national interest. The podcast promises to educate, motivate and activate patriots with the facts needed to preserve “one nation under God” and the support of Israel and the Jewish people. “Proclaiming Justice” was launched on a variety of top podcast sites and both the list and listenership are growing.

*Focus On Israel* (FOI) beams a message of support for Israel and the Jewish people despite all challenges. PJTN's flagship television production, *Focus On Israel*, beamed strongly across the world throughout 2021 - bolstered by more than a dozen broadcast partners over multiple satellite platforms.

At a time when global antisemitism is at an all-time high, the weekly 30-minute broadcast hosted by Laurie Cardoza-Moore, achieved more new viewers, new topics and new opportunities to win hearts and minds for Israel and the Jewish brethren. New global PJTN Watchmen continued to enlist support for PJTN messaging. More than a dozen new episodes of FOI were packaged for release by PJTN's in-house production team.

### PJTN Adds New TV Broadcast Partner in 2021

In September, PJTN finalized an agreement with End Times TV, a new streaming network based in Canada, for the global airing of *Focus On Israel*.

The network has international partnerships that carry its North American programming to reach markets that include, Australasia, India and the Philippines.

*Focus On Israel* will air daily, including weekends, at 10:00 AM ET and will be time appropriate in global time zones.

It can be viewed on ROKU, as well as streaming over the internet at [www.endtimes-tv.com](http://www.endtimes-tv.com)

## 2021 IN RETROSPECT

This year saw a frightening increase in dangerous textbook and curriculum issues. Proclaiming Justice to The Nations (PJTN) and its textbook and curriculum arm Truth in Textbooks (TNT) worked diligently on many textbooks. It was and is my distinct honor as PJTN's Senior Academic Fellow and as the Director of TNT to work with Laurie Cardoza-Moore on such topics as anti-Americanism, anti-Semitism, Holocaust Revisionism, anti-Israelism, anti-Constitutionalism, anti-American Exceptionalism, the Black Lives Matter Curriculum and the California Ethnic Studies Curriculum. In addition to these, PJTN was requested to examine both the Florida Civics and Holocaust Standards and to draft new Standards in those two disciplines.

What did we "accomplish" this year? We wrote and submitted new K-12 Civics and Holocaust Standards to the Florida State Board of Education (SBOE). The standards are under consideration, and we will know the result during the year. However, what I think is important is that Laurie is now able to open an academic dialogue with other SBOEs on Civics and Holocaust Education, the historical revisionism of the Constitution, the establishment of the Judeo-Christian Tradition by our Founding Fathers, immigration, and citizenship, among other Civics-related topics. Similarly, Laurie will also open a pointed dialogue on how the SBOE and the State fulfill their Governor's mandate to promote the National anti-Semitism ruling in the classroom and to ensure the correct teaching of the Shoah.

The results of these accomplishments, while impressive, reside in the future. Where we have been both active and successful in 2021 is in the review of textbooks with egregious errors that teach Jew-Hatred and are therefore responsible for the continuous increase in anti-Semitism. Where textbooks teach anti-Semitism, they also teach anti-Israelism and the delegitimization of Israel as a Nation-State, while teaching the promotion of the "Palestinian Narrative." TNT reviewed textbooks in use and under consideration in all of the areas listed above. I train volunteers as reviewers to help with the initial work.

PJTN has been invited to participate in the State Textbook Adoption Process of such states as Florida (2021), Texas and Tennessee (2022). It is my duty and honor to review the textbooks up for purchase and to make a careful recommendation on each.

If I were asked to comment on what I consider our most important, (and still ongoing) responsibility, I would respond that, without hesitation, it was our work in bringing forward in 2021 the egregious historical revisionism, anti-Americanism, anti-Semitism, anti-Israelism and Holocaust Revisionism of Pearson Publishers and their role in teaching hatred, bigotry and anarchy. None of what we did in 2021 is finished. Everything is ongoing and urgent. I will face the publishers one on one, as I have done for almost 20 years, and confront them with their egregious errors and Leftist agenda. We will ask for corrections and make the errors public...just as we will do with their responses. 2021 is over but our work is not.

It is at this point that I must add my opinion on the mandate facing us in 2022. We must ensure that Civics Education in this country teaches the Judeo-Christian Heritage of the United States, the dedication of the Founding Fathers to Mosaic Law, the place and contributions of American Jews as American citizens to American society, the dangers of all religious and ethnic bias, and the rights guaranteed by the United States Constitution to all American citizens who accept and adhere to the Rule of Law. To accomplish this mandate, Standards for Civics Education must be reviewed thoroughly and revised to eliminate their anti-Americanism and anti-Semitism and Standards for Holocaust Education must be reviewed and revised to stem the tide of revisionism, to teach the meaning of Jew-Hatred, to protect and reinforce the bond both between Christians and Jews in America and America and Israel. That is the mandate given to all of us.

Dr. Sandra Alfonsi  
Senior Academic Fellow, PJTN

## How to Remove Critical Race Theory from Our Schools

By Michael S. Goldstein, General Council for PJTN

State legislators know nothing about Critical Race Theory (CRT). Descended from Critical Theory (CT) created by the Marxist German Frankfurt School, CRT is the latest effort to divide Americans by race and create a hierarchy of victimhood to use in the war against America's history and our free-market economy, with the goal of turning the United States into a Marxist state.

Do our state legislators fear CRT as the existential national threat it is? Are they or are they not willing to expunge its divisive concepts from our educational system, and are they willing to stay the course to achieve this end? Reviewing their legislative behavior, apparently they are not.

Although state legislatures have the authority to write effective anti-CRT legislation, the evidence demonstrates that thus far their members do not have the fire in their bellies to make this work. It now becomes the task of America's grass roots to take action to ensure that our elected state legislators and governors enact effective anti-CRT legislation, laws that include the means to eliminate its divisive concepts from our schools.

An ad hoc working group in which I participate has drafted model anti-CRT divisive concepts legislation to educate state legislators on what language must be included in such legislation to make their bills effective. In doing so, we reviewed anti-CRT bills proposed, and laws passed, in several states. Most statutes are extremely weak and are incapable of halting the teaching of CRT divisive concepts in our schools. Why were such ineffective laws adopted? Our presumption was that although the authors of the bills wanted to include stronger language in their legislation, they could not gain enough support for passage from their legislative colleagues, and from governors who would have to sign the bills, without first stripping their bills of language which would realistically enable them to eradicate the indoctrination of our children in CRT divisive concepts in the real world that is our education system today.

We found that our presumption was correct. Members of our working group were included in a conference call among state legislators who had sponsored what turned out to be marginally or totally ineffective anti-CRT bills that became law, and sponsors of bills which had not yet passed committees to be sent to their House and Senate chamber floors for a vote. These sponsors took what they could get passed, but the resultant statutes are insufficient to accomplish the task.

Legislators and governors who support only bills that will not bring the teaching of CRT divisive concepts in our schools to a screeching halt are merely virtue signaling. They want the voters to believe that they are protecting their children and the nation from this noxious, racist curriculum meant to transform America into a collective state which will control the entire economy and strip individual citizens of their individual rights.

Bills which will in fact remove CRT concepts must constitute an impenetrable legal brick wall which will completely block CRT indoctrination of our students. Such laws first must contain language strong enough to block from the schools all types of funding which would support CRT divisive concepts-facilitating programs. Secondly, they also must include penalty provisions sufficiently robust to deter providers of CRT divisive concepts from indoctrinating our children.

**Funding** - These statutes must block all sources of funding for CRT divisive concepts teaching in our schools. This includes all federal sources and individual states' sources, including prohibition of grants from a state agency to a state or local educational agency. One state's Department of Education is offering grants to local school districts, schools, and teachers to teach the 1619 Project curriculum. All private funding sources must also be blocked.

The statute must clearly make it unlawful for an educational entity, from the state down to the individual teacher, to solicit, accept, or use any such funds for any purpose related to preparing teachers for, planning for, or teaching any of the CRT divisive concepts prohibited by the statute.

**Enforcement** - Some states have already included language to the effect that a teacher who teaches the divisive concepts prohibited by the legislation is at risk of losing his or her teaching certification. Other states are trying to include language mandating that a student who attends any class in which these concepts are taught will not receive credit toward graduation for completing that class.

However, the most effective deterrent will result from placing the main enforcement of the law not in the realm of bureaucratic action, but in the hands of the parents and guardians of the students who are damaged by the indoctrination they are receiving. There should be in every anti-CRT statute a private right of court action, not just for equitable relief (i.e., a judge ordering the school board to stop teaching the statutorily prohibited divisive concepts because they are violating the law in doing so), but in addition, for money damages (compensatory, consequential, and punitive) judgments in favor of damaged student/parent/guardian plaintiffs against both the state and local boards of education, including their individual members, and against individual teachers who teach these concepts in violation of the statute.

Appropriate model statutory language regarding both funding and enforcement is available from Proclaiming Justice to The Nations ([www.PJTN.org](http://www.PJTN.org)) by contacting the author directly by email at [MGoldstein@PJTN.org](mailto:MGoldstein@PJTN.org).

**Citizen Action** - Influencing your state legislators to pass effective legislation is one more responsibility for our grassroots citizens who vote them into office, especially the parents and grandparents of the children being indoctrinated. Our citizens who are already educated, or who are presently becoming educated, on the seriousness of CRT racism and indoctrination in the schools and the consequence both to the children and to our nation, must engage in this effort. All concerned voters should contact their own state representatives and senators; each member of a state house and senate K-12 and higher education committee; the speaker of the house and the majority leader of the senate, and their governor's office, to express their concern and to demand that effective anti-CRT divisive concepts legislation be drafted and passed into law in their state. Look online for their contact information on your state house and senate and governor's websites. Call them on the phone and leave detailed messages stating your requests. Send them strong but civil emails. Make appointments to meet with them as individuals or groups, either in their offices in the state capital or in their districts. Let them know that you support and will elect legislators who take this matter seriously and who will legislate affirmatively by incorporating clear-cut language to cut off funding from these programs and imposing effective penalties for violations. Let them know that neither you nor your friends and neighbors, who are their constituents, will elect candidates or reelect incumbents who fail to do so.

Michael S. Goldstein, Esq. retired Navy officer and 30-year veteran of the U.S. intelligence community, is General Counsel and State of Arizona Director of Proclaiming Justice to The Nations.

“Freedom is never more than one generation away from extinction. We didn't pass it to our children in the bloodstream. It must be fought for, protected, and handed on for them to do the same, or one day we will spend our sunset years telling our children and our children's children what it was once like in the United States where men were free.”

- Ronald Reagan

Laurie Cardoza-Moore at the Ronald Reagan Institute

### DID YOU KNOW?

With the opening of 2022, PJTN continues active discussions with the Reagan Library on strategic ways we can partner to bring the conservative strength of “Reagan Values” back to American education

### DID YOU KNOW?

A full 80% of PJTN’s foundational donors have remained within the ranks of our organization for ten years or more - a remarkable track record for a nonprofit model such as ours that is **TOTALLY** reliant on donors support to underwrite our agenda.

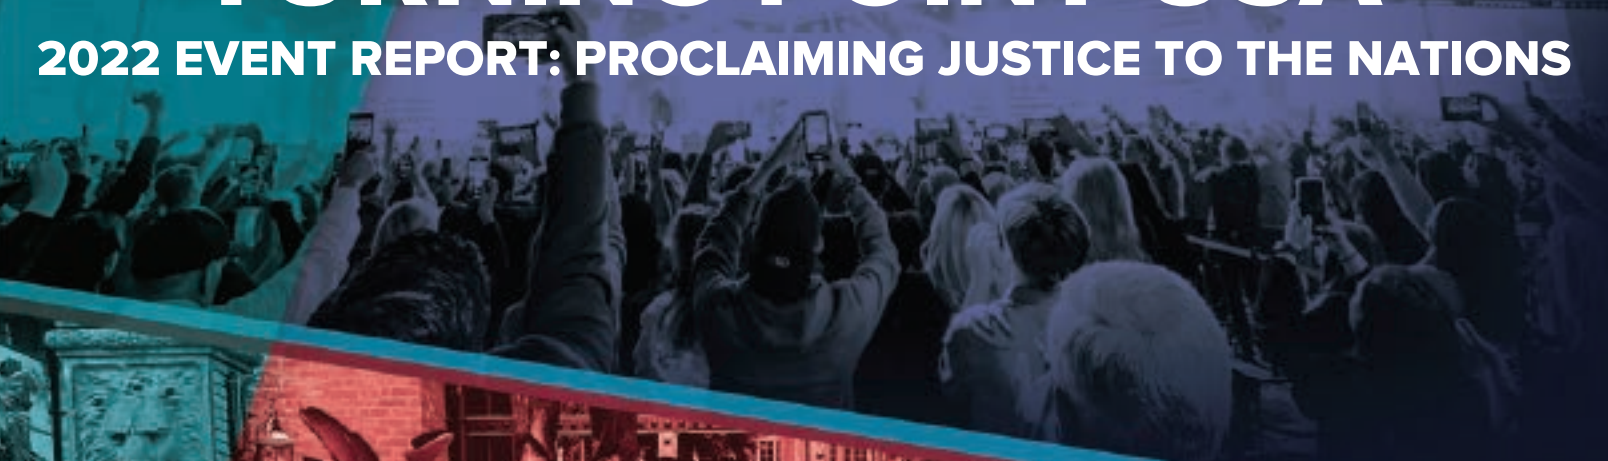

Last year brought an increase of new “Watchmen” sign-ups and we are hoping to triple this accomplishment in this coming year. There is strength in numbers. As age old hatreds re-emerge, we are armed with the wisdom of the past to not allow history to repeat itself.

# TURNING POINT USA

2022 EVENT REPORT: PROCLAIMING JUSTICE TO THE NATIONS

## TPUSA STAFF TESTIMONIALS

### **CRISTIAN CLEMENTI**

#### **Senior National Field Program Representative, Sunshine Territory**

"The Proclaiming Justice in America event was a fantastic, intimate event with various patriots from the conservative world. Our team thoroughly enjoyed networking with Christian education groups, representatives from other free-market organizations, and pro-Israel groups in our area. I was honored to speak to the entire conference about TPUSA's mission to identify, educate, and mobilize young activists both nationwide and across the state of Florida. I left the event feeling better connected with patriots in my area, and look forward to working with new partners to spread conservative values throughout Florida!"

### **MICHAELA SCHMIDT**

#### **TPUSA Faith Representative, Citrus Territory**

"It was an absolute privilege to attend the Proclaiming Justice in America event this past month. I was grateful for the opportunity to speak to the conference about TPUSA Faith's mission to civically engage America's faithful by building coalitions to stand for Biblical values in today's culture. It was a pleasure to speak to a room full of likeminded Americans about the fight for truth and liberty—and I am confident that attendees will join us in our fight to protect our God-given liberties.

At the event, I also had the privilege of meeting PJTN's founders, Laurie Cardoza-Moore and Donna Render. Both women are bold, faithful, and passionate women who are advocating for children and righteousness in today's society. Thank you for this incredible opportunity!"

### **EMMANUEL ORAMAS**

#### **National Field Program Representative, Citrus Territory**

"I had a wonderful time at the PJTN event in Orlando this spring! Cristian, Michaela, and I spent much of our time connecting and networking with fellow conservative activists at the event. We set up a table with TPUSA's exciting campus and faith-based materials, and held many discussions about how to promote conservative values in communities in Florida and across the country. I would love to attend more events like this in the future to continue building the growing TPUSA Network!"

## TPUSA IN ACTION: PJTN IN ORLANDO, FL

*TPUSA Representatives distributed conservative materials to event attendees, networked with other organizations, and discussed TPUSA's mission and vision with other likeminded activists.*

*TPUSA Representatives Michaela and Emmanuel had the opportunity to meet PJTN Founder Laurie Cardoza-Moore.*

*TPUSA Representatives Cristian and Michaela deliver speeches to the PJTN conference about TPUSA's mission, the National Field Program's efforts across Florida, and TPUSA Faith's mission to unite faith and liberty among America's faithful.*

### There is a battle in American education that echoes state to state in the nation as PJTN's "Taking Back America's Children" Campaign becomes a war we cannot afford to lose!

#### Our Mandate and Marching Orders

---

- **K-12 Education** – We will remain engaged as a thought leader and major agenda-setter in the war against anti-Semitic content in curricula. Amid the unfortunate and well-planned battle to “dumb down” America in current culture, PJTN creates new opportunities of exposing and tying antisemitism back to its very roots—the void in America’s educational system. The hatred begins with the “small seeds” planted in the minds of children K-12 - a fact well documented and proven by the exhaustive intel PJTN compiled throughout 2019 in our white paper investigation and report. We have proven that by the time our college-age kids are marching in BDS rallies and pro-Palestinian demonstrations on campuses all over America, they have been exposed to antisemitic and anti-Israel propaganda in their K-12 classrooms.
- **HOLOCAUST REVISIONISM** – PJTN will mobilize in full force on this in the months ahead through media as well as through community action task forces that are being planned.
- **MAINSTREAMING POLITICAL ANTISEMITISM** – PJTN will continue to forge ahead to expose and challenge the antisemitic political and social leaders who promote antisemitism through their public statements. We will oppose the enemies of our Judeo/Christian values. We will display our unrelenting support of Israel and the Jewish people.

#### Looking ahead in 2022: On the Ground State by State

---

PJTN's ground breaking county-by-county, state-by-state initiatives are not a “one and done!” This will be an ongoing effort until we reach all 50 states. In the decade since we began our successful initiative in Tennessee (1.3 million students), we are now working with the governors, state departments of education and state legislators in **Florida** (1.8 million students); **Texas** (5 million students); **Ohio** (1.7 million students); **California** (6 million students); **Arizona** (1 million students); **Minnesota** (850,000 students); **Pennsylvania** (140,000 students); **New Mexico** (340,000 students) and **Nebraska** (316,000 students), the next state to adopt our initiative. These states combined account for over 20 million students that we can re-educate in grades K-12 every year. Priority states for PJTN in 2022 will be Florida, California and Texas. These three states constitute the largest purchasers of school textbooks and curricula and thus exert national influence on what materials are ultimately presented in classrooms across the nation. We will be an influencer!

#### In Closing

---

On behalf of our Board and our committed 100,000+ digital “PJTN Watchmen” we are asking you to prayerfully consider helping us expand our global reach.

With the call to remain silent, we will only grow louder in our messaging—new strategies, new platforms and new original PJTN media programs and documentaries are being announced in 2022.

In short: PJTN will be positioned on the frontlines and in the headlines with “Taking Back America's Children” and other agenda in 2022 and beyond.

Those who seek to “cancel” our Judeo-Christian value system and the liberties we hold dear, are now in positions of greater power. The path ahead for PJTN is clear. We must stop them from poisoning our children and grandchildren with anti-American, anti-semitic, anti-Israel, pro Holocaust revisionist propaganda.

The more we can count on your support, the more focused and empowered we can be.

PJTN is rebuilding the future of America, state-by-state, county-by-county, school district-by-school district to ensure the ongoing freedom and welfare of our next generation of leadership in America: Our children.

We cannot do it without you!

The philosophy  
of the school room  
in one generation  
will be the philosophy  
of the government  
in the next
