

2022-2023 INFORMATION TECHNOLOGY WORKSHOP SERIES

MEETING SCHEDULE AND REGISTRATION

INCIDENT RESPONSE WORKSHOP

THURSDAY, OCTOBER 27, 2022 | 10:00 AM - 11:00 AM | [REGISTER HERE](#) OR BY QR CODE

This workshop will focus on the incident response lifecycle – how to prepare your municipality for an incident, how to detect potential security threats in your environment, how to contain them, and how to investigate the potential impact of the threat on your systems and data, how to preserve evidence, and finally how to recover safely from a cyber incident. We will also focus on shared responsibilities related to incident response with 3rd party vendors. A basic incident response template will be provided to attendees.

SECURITY OPERATIONS WORKSHOP

THURSDAY, NOVEMBER 17, 2022 | 10:00 AM - 11:00 AM | [REGISTER HERE](#) OR BY QR CODE

Building on the lessons from the first workshop, in this session, we will discuss how to build a layered security program for maximum threat resiliency. We will talk about the different levels of "SecOps," from protecting and monitoring endpoints to managing security across multiple cloud applications.

EMERGING THREATS WORKSHOP

THURSDAY, FEBRUARY 16, 2023 | 10:00 AM - 11:00 AM | [REGISTER HERE](#) OR BY QR CODE

Municipalities face an ever evolving security threat landscape. In this workshop, we will look at the types of threats municipalities commonly face, their origin, and what some cities and towns are doing to build layered protection strategies.

BEST PRACTICES FOR TECHNOLOGY EVALUATION, SECURITY IMPACT ANALYSIS, AND VENDOR MANAGEMENT WORKSHOP

THURSDAY, APRIL 20, 2023 | 10:00 AM - 11:00 AM | [REGISTER HERE](#) OR BY QR CODE

This workshop will focus on best practices for municipalities in evaluating technology (software, hardware, applications, etc.), analyzing the security implications of new technology acquisitions, and managing third party vendors so that third parties do not jeopardize a municipality's security posture.
