

AROGA®

SKIN SUPPORT

WELLNESS BEGINS WITHIN®

Our skin has many functions necessary for maintaining life. The skin protects us from adverse effects of mechanical impacts and pressure, micro-organisms, chemicals, radiation, variations in temperature, and excessive water loss. Other important functions include the synthesis of vitamin D and protective sensations such as hot, cold, pain, etc.

As with all of our organs, the health (and beauty) of the skin begins within. The body is designed to stay healthy. When our body's cells become old or damaged, they must be repaired or, if repair is not possible, replaced by young, healthy cells. Autophagy and apoptosis are the processes by which the cells that make up our bodies are either repaired or, if repair is not possible, are removed so that they can be replaced by new, healthy cells. These processes (repair, removal, rejuvenation) take place every minute of our lives and are necessary for optimal health.

Aroga Pathways Plus Skin Support provides food, not normally found in the modern Western diet, required for the skin to be rejuvenated and function optimally.

Each capsule (all-vegetable) of Aroga Pathways Plus Skin Support is based on cutting-edge cellular science, and consists of 100% plant-based food, contains no fillers or binding agents and is manufactured in the USA.

INGREDIENTS

Amla Fruit Powder
 Gotu Kola Powder
 Mangosteen Fruit Powder
