

AROGA®

CARDIOVASCULAR SUPPORT

WELLNESS BEGINS WITHIN®

The blood contains a wide variety of chemicals and cells that are necessary for life, so blood being delivered to every cell of the body is essential for survival. The transport of blood throughout the body is the job of the cardiovascular system, which is comprised of the heart and blood vessels (arteries and veins). In addition to normal aging, and wear and tear, the cardiovascular system is exposed to all the contents of the blood, some of which can cause damage.

The body is designed to stay healthy. When our body's cells become old or damaged, they must be repaired or, if repair is not possible, replaced by young, healthy cells. Apoptosis, and its associated pathways, is the process by which the cells that make up our bodies are either repaired, or, if repair is not possible, are removed so that they can be replaced by new, healthy cells. These processes (repair, removal, rejuvenation) take place every minute of our lives, and are necessary for optimal health.

Aroga Pathways Plus Cardiovascular Support provides foods, not normally found in the modern Western diet, required for cells of the heart and blood vessels to be rejuvenated and function optimally.

Each capsule (all-vegetable) of Aroga Pathways Plus Cardiovascular Support is based on cutting-edge cellular science, and consists of 100% plant-based food, contains no fillers or binding agents, and is manufactured in the USA.

INGREDIENTS

Amla Fruit Powder
Beet Root Powder
Milk Thistle Seed Extract
Turmeric Root Powder
100% Vegetarian Capsule

One Time \$86.25	RV: 84 CV: 84
Monthly \$69.00	RV: 67 CV: 67
