01 THE CONTEXT: THE DIGITAL TRANSFORMATION OF THE LEGAL SECTOR

Legal DigComp Survey and the Report of Findings

Encuesta Legal DigComp

El Legal DigComp es una iniciativa conjunta del Observatorio Legaltech Garrigues-ICADE y Women in a Legal World que promueve el perfeccionamiento (*upskilling*) de las competencias digitales de los operadores jurídicos.
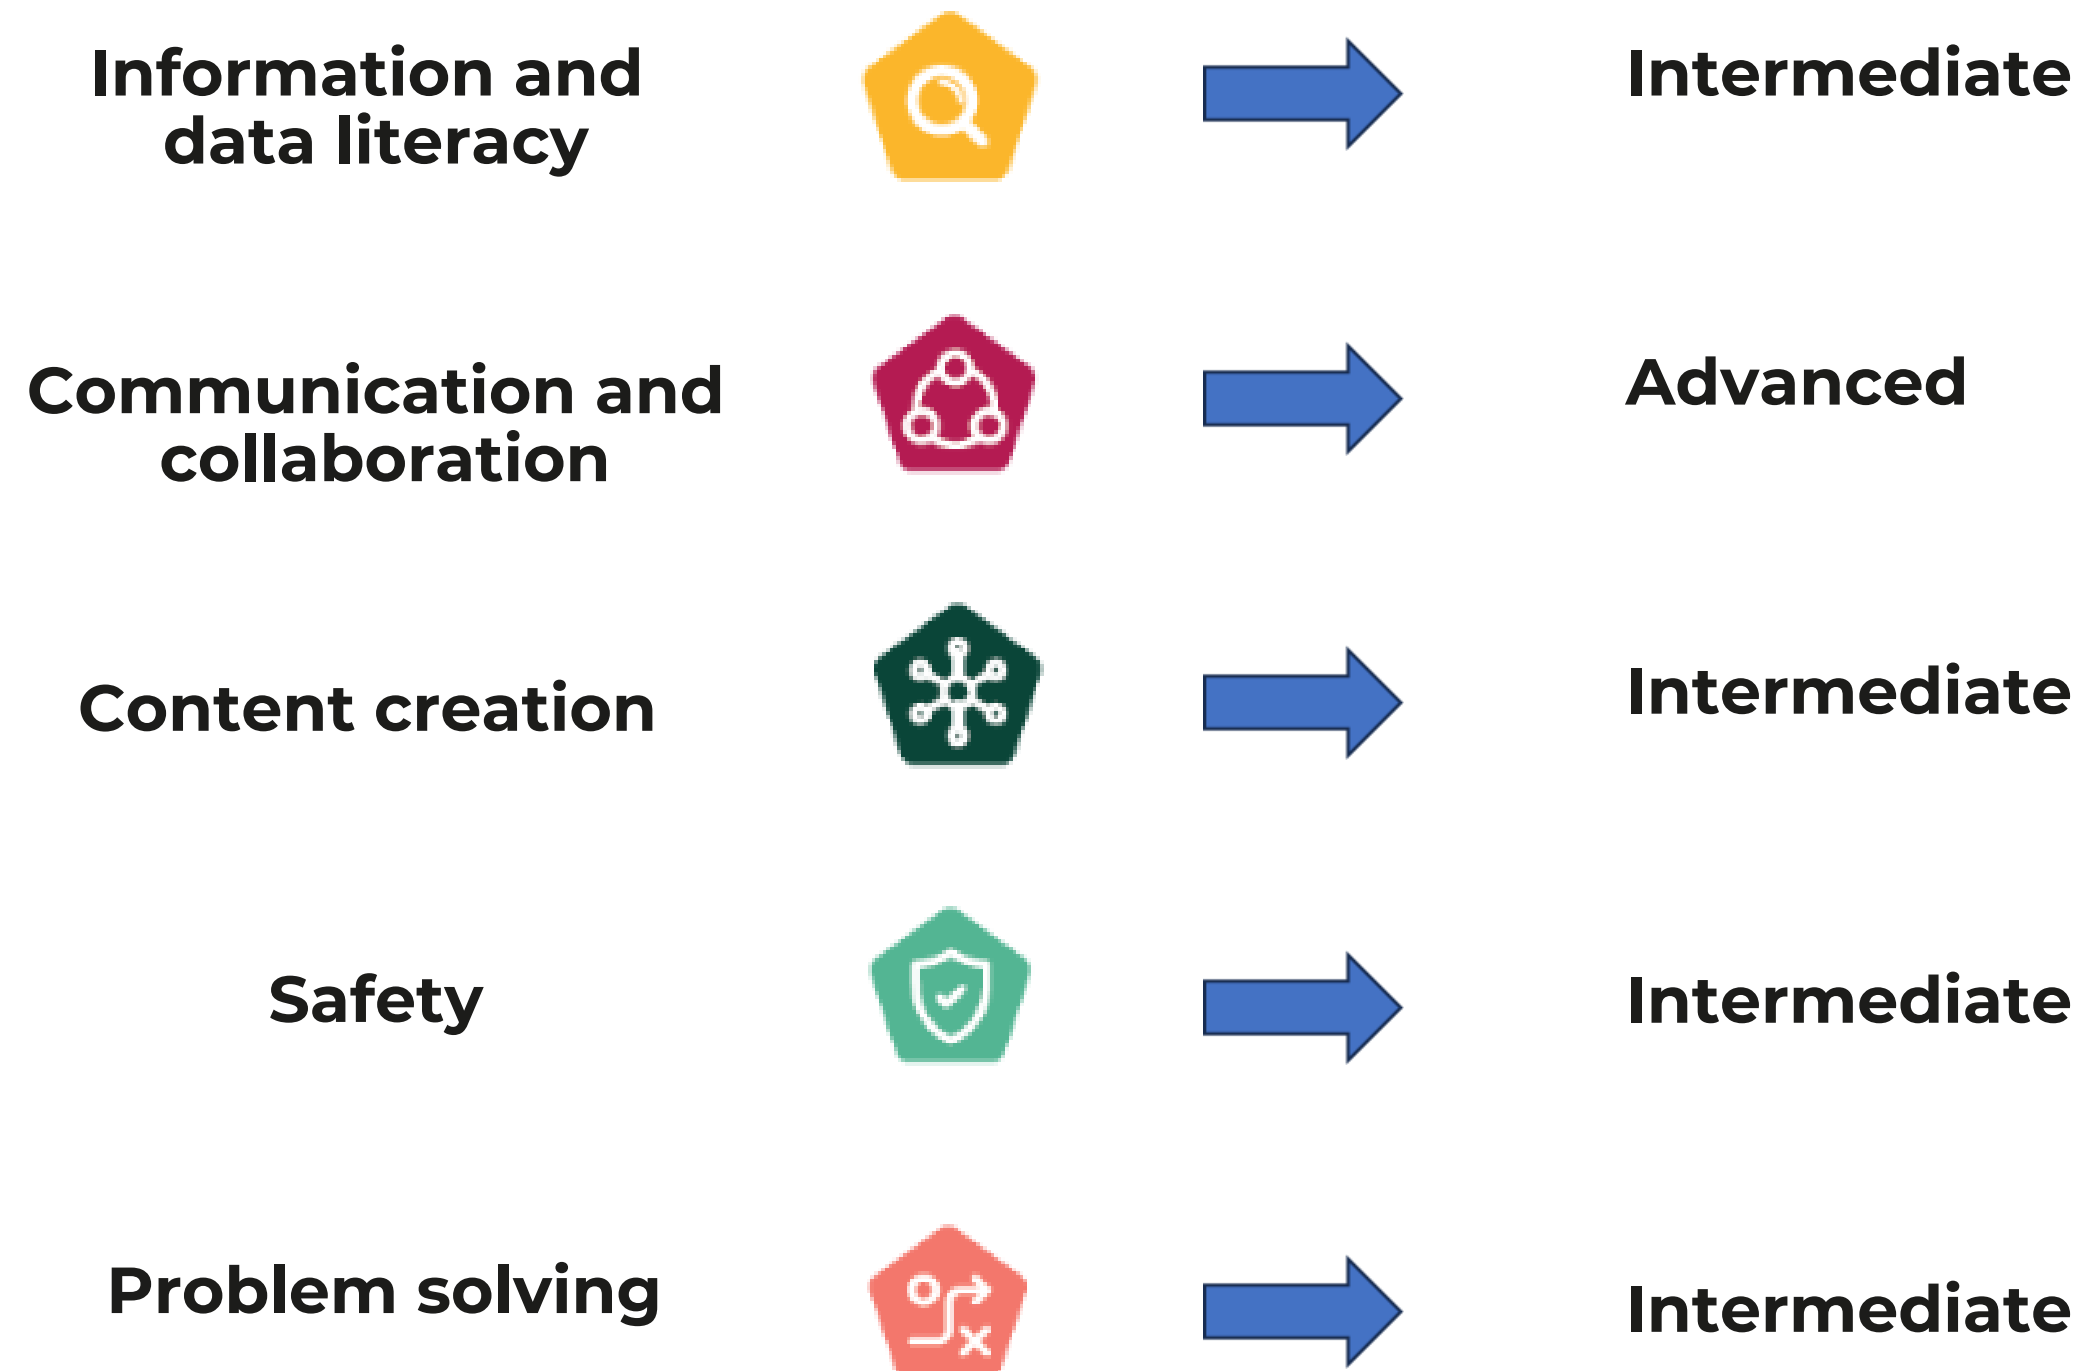

Esta encuesta sirve como una primera aproximación de un operador jurídico al Marco de Competencias Digitales para la Ciudadanía (DigComp). El participante de la encuesta auto-evaluará su nivel de competencias digitales en su día a día como operador legal. Tras finalizar la encuesta, recibirá el resumen de su mapa de competencias, que podrá utilizar para saber qué competencias tiene que reforzar. Además, el operador legal podrá utilizar sus resultados para compararlos con los resultados generales del sector legal, que se publicarán de forma anonimizada en el evento Legal DigComp que tendrá lugar el día 21 de junio.

Si quieres saber más sobre el Legal DigComp, consulta el Informe Legal DigComp aquí.
