

Idaho Perinatal Quality Collaborative News

The **Maternal and Child Health Program** of the Idaho **Department of Health and Welfare** and **Comagine Health** have partnered to establish Idaho's Perinatal Quality Collaborative (IDPQC). The Idaho PQC brings together clinical providers, public health leaders, payers and community-based organizations to improve outcomes for pregnant people and babies.

IDPQC to Launch Severe Hypertension Patient Safety Bundle at Kickoff

Join us as we officially launch the **Patient Safety Bundle: Severe Hypertension in Pregnancy** during the IDPQC Kickoff Meeting on Oct. 16. This kickoff will cover how your hospital can enroll in the AIM Data Center, what data elements are required for reporting, what the PQC structure will look like and how you can be involved.

Stay tuned for information on the **IDPQC Annual Summit**, coming this winter/spring!

Meet the Idaho Perinatal Quality Collaborative (IDPQC) Establishment Team

Jennifer Liposchak is the women and infant health program manager for the Idaho Department of Health and Welfare's Maternal and Child Health Program, where she has been instrumental in improving maternal and infant health outcomes in Idaho. She coordinated the Idaho's Maternal Mortality Review Committee and is dedicated to supporting moms and babies throughout the state.

Ami Hanna is the maternity program manager at Comagine Health and has extensive experience in improving maternal health outcomes for underserved communities. As a full-spectrum doula, her work has provided a firsthand understanding of the barriers that many families face in accessing quality maternal health care.

Genevieve Rasmussen is a project manager with eight years of experience in direct patient health care settings. She has led large-scale data collection and evaluation projects and currently manages the Oregon Maternal Data Center among other projects.

Phillip Wetmore is a senior project coordinator dedicated to improving maternal health care quality by collaborating with health care providers, community partners and beneficiaries. He has helped implement the OB Hemorrhage AIM patient safety bundle and coordinated with the Oregon Perinatal Collaborative to host the annual Maternal Health Summit among other projects.

This project was supported by CFDA 93.994 from the Health Resources and Services Administration. Its contents are solely the responsibility of the authors and do not necessarily represent the official views of the Idaho Department of Health and Welfare or the Health Resources and Services Administration.
