

The Alzheimer's and Dementia Care ECHO® Program for Primary Care Practices

[Click Here to Register!](#)

This Project ECHO series is a free, practical, case-based education series for primary care providers who want to enhance their knowledge, competence, and performance related to improving care for older adults with Alzheimer's disease and related dementias. Participants will connect using video conferencing (Zoom) to hear brief didactic presentations from dementia care experts and participate in de-identified case presentation discussions (submitted in advance by participants).

Schedule:

Sessions will start on **10/13/21** and run from 12 noon to 1 pm ET every other Wednesday (**10/13/21, 10/27/21, 11/10/21, 12/8/21, 1/12/22, 1/26/22, 2/9/22, 2/23/22, 3/9/22, 3/23/22, 4/13/22, and 4/27/22**).

You will learn more about topics presented by dementia content experts including:

Assessment, Evaluation, and Diagnosis Tools	Communication of Findings to Patients and Caregivers	Addressing and Meeting the Needs of Caregivers	Advanced Care Planning, Management, Coordination, and Transitions of Care
---	--	--	---

To get the most out of this series:

It is recommended that primary care sites dedicate an interprofessional care team of at least two to three providers to join this twelve session series. Past participant teams have included physicians, nurse practitioners, nurses, physician assistants, social workers and psychologists. The variety of healthcare disciplines and backgrounds among the participants enriches discussions and helps to provide a diverse range of perspectives, considerations and advice, where **"All teach and all learn."**

CME/CEU Credits

Application for CME and CE credit has been filed with Rush University Medical Center. Determination of credit is pending.
