Change history

Gamma.1	31.01.2020	B. Rytz	Ready for publication after review RCA core group
---------	------------	---------	---

1. Introduction

1.1. Purpose of the document

This document lists, identifies and defines all documents of the RCA (reference CCS architecture).

The document contains:

- An overview of the document categories used in RCA
- A list of all documents, i.e., the documentation plan

A graphical depiction of the documentation plan can be found in RCA.Doc.36.

1.2. Recommended reading

For readers new to RCA the following reading order may be useful to get started:

RCA.Doc.1	RCA White Paper
RCA.Doc.7	RCA FAQ
RCA.Doc.15	RCA System Concept
RCA.Doc.13	Concept: Architectural approach / System-of-systems perspective
RCA.Doc.43	Informal Architecture Overview
RCA.Doc.28	Concept: Migration scenarios
RCA.Doc.29	Concept: LSL - Enhanced L3, Supervision, Localisation
RCA.Doc.34	RCA Roadmap
RCA.Doc.37	Concept: RCA effects overview

1.3. Related documents

- The “RCA Documentation Plan Visualisation” [RCA.Doc.36] provides a visualisation of the current and planned documents.
- The “RCA Release notes” [RCA.Doc.5] describe the added / updated documents (according to this documentation plan) for a given release.
- The “RCA Change Management Control Process” [RCA.Doc.39, planned] describes how the documents / deliverables are managed (baselines, etc.).

2. Structure of the documentation plan

2.1. Document attributes

The documentation plan uses the following attributes for every document:

Id	A unique identifier for the document of the form RCA. Doc. XXX where XXX is a decimal number without special meaning.
Category	See description below
Type	Distinguish between <ul style="list-style-type: none">▪ Doc = Document▪ MB = Model-based▪ Dia = Diagram
Name	Name of the document
CENELEC	CENELEC phase(s) (if applicable)
First published	Release in which document was first published. May be “Planned”, when document is not yet published.
Comment	Important information, e.g., that the document is obsolete or has been superseded by other document.

As soon as formal change control is in effect (to be defined in Change Control Management process [RCA.Doc.39], the handling of versions / releases / baselines will be specified in more detail.

2.2. Documentation categories

The documentation plan for RCA includes different categories of documents with differing needs of formality and change control. The following table describes the defined categories:

Category	Purpose	Content (examples)	Degree of formality
A. RCA system specification	The (future) core RCA specification with CENELEC-compatible structure	formalised system, function, component, interface specification	High: formalized, modelled, formal QA, formal change-control (CC) in CCB
B. Concept development	Concepts not (yet) suitable for system specification (maturity, formality)	RCA effects, migration paths for RCA users, principles of the safety logic, capability-based protocols	Low-to-medium: free-form, QA and CC by RCA core group

C. Mission and Process description	Description of how the RCA process is organized	Process overview, modelling guidelines	Medium: free-form, QA and CC by RCA core & strategy group
D. Communication support	Material to explain RC and to create awareness	FAQ, presentations, films	Low: free-form, informal QA
E. Demonstrators	Support development by concrete experiments Showcase RCA	RCA demonstrator planned for InnoTrans	(for InnoTrans) Low: free-form, informal QA
X. eXternal documents	Documents provided / prepared by other working groups, but which (on mutual agreement) are included in an RCA release.	Documents on localisation from the LWG (Localisation Working Group).	See B. Concept development

Each document / artefact of the documentation plan is classified according to these categories.

Note on the relationship between categories «A. System specification» and «B. Concept development»:

- A given topic (e.g., modular safety or platform independence) is expected to start in «concept development» and to transition to «system specification» if and only if it is
 - needed for the formal specification and
 - mature enough (shared understanding achieved, efficient work process in formal environment)
- Such topics will typically end up in the «domain knowledge» or in the «generic ... requirements» part of the «system specification»
- In some cases, the treatment of a topic may remain distributed over documents both in «concept development» and in «system specification» if they differ in the need for formality (an example might be some architectural design principles).

3. List of documents

Id	Cat	Type	Name	Short description	CENELEC phases	Valid	First Published	Latest Update
RCA.Doc.1	C	Doc	RCA White Paper	The rationale for starting RCA. Foundation for MoU between EUG and EULYNX.	-	Y	Alpha	-
RCA.Doc.2	B	Doc	RCA Architecture Overview		-	N	Alpha	Beta
RCA.Doc.3	C	Doc	RCA Process Overview	How the RCA group works to prepare, maintain and bring the RCA specification to the sector.	-	Y	Alpha	Gamma
RCA.Doc.5	C	Doc	RCA Release Notes	Description of current release of RCA deliverables.	-	Y	Alpha	Gamma
RCA.Doc.6	A	Doc	RCA Documentation plan	Overview of the documentation set of RCA	-	Y	Gamma	Gamma
RCA.Doc.7	D	Doc	RCA FAQ	Frequently asked questions and answers regarding RCA. Useful for a quick overview.	-	Y	Alpha	Gamma
RCA.Doc.8	B	Doc	Concept: Modular Safety	A modular architecture requires and enables concepts to reduce the safety workload.	-	Y	Beta	Beta
RCA.Doc.9	B	Doc	Concept: Sourcing scenarios		-	N	-	-
RCA.Doc.10	B	Doc	Concept: RCA Effects - Business Case	The economic effects (savings) of an RCA-based implementation, based on smartrail 4.0 and extrapolated to other IMs.	-	Y	Gamma	Gamma
RCA.Doc.11	B	Doc	Concept: Platform Independence	The need to achieve more modularity between applications and the platf-forms.	-	Y	Beta	Beta
RCA.Doc.12	B	Doc	Concept: RCA Effects - Capacity	The effects on traffic capacity for an RCA-based system.	-	Y	Beta	Beta
RCA.Doc.13	B	Doc	Concept: Architectural approach / System-of-systems perspective	Architectural principles for the RCA.	-	Y	Beta	Gamma
RCA.Doc.14	A	MB	RCA Glossary	Definition of used terms.	-	Y	Gamma	
RCA.Doc.15	A	Doc	RCA System Concept	A high-level description of the goals and fundamental concepts of RCA:	1	Y	Gamma	
RCA.Doc.17	A	MB	RCA System Architecture specification		5	N	-	DS
RCA.Doc.18	A	MB	RCA Domain knowledge	Defines important domain concepts used in the specification.	-	N	-	-
RCA.Doc.19	A	MB	TMS-PE Subsystem definition and Subsystem requirements definition		2,4	N	-	DS
RCA.Doc.20	A	MB	TMS-AE Subsystem definition and Subsystem requirements definition		2,4	N	-	DS
RCA.Doc.21	A	MB	APS-SL Subsystem definition and Subsystem requirements definition		2,4	N	-	DS
RCA.Doc.22	A	MB	APS-FOT Subsystem definition and Subsystem requirements definition		2,4	N	-	DS
RCA.Doc.23	A	MB	APS-MT Subsystem definition and Subsystem requirements definition		2,4	N	-	DS
RCA.Doc.24	A	MB	ATO-AV Subsystem definition and Subsystem requirements definition		2,4	N	-	DS
RCA.Doc.25	A	MB	Interface 1 requirements specification		2,4	N	-	DS
RCA.Doc.26	A	MB	Interface 2 requirements specification		2,4	N	-	DS
RCA.Doc.27	A	MB	Interface 4 requirements specification		2,4	N	-	DS

Id	Cat	Type	Name	Short description	CENELEC phases	Valid	First Published	Latest Update
RCA.Doc.28	B	Doc	Migration	Illustrates how migration towards an RCA-based system can be planned, including examples of different IMs.	-	Y	Gamma	Gamma
RCA.Doc.29	B	Doc	Concept: LSL - Enhanced L3, Supervision, Localisation	Evolution of ETCS, rationale for submitted TSI CRs.	-	Y	Gamma	Gamma
RCA.Doc.30	B	Doc	Concept: Principles of the safety logic	Geometric-based interlocking for more capacity and flexibility.	-	Y	Gamma	Gamma
RCA.Doc.31	B	Doc	Concept: Operational plan	Concept for the standardized interface between RCA and a TMS.	-	Y	Gamma	Gamma
RCA.Doc.32	B	Doc	Concept: Degraded modes	The role of degraded modes in specifying RCA.	-	Y	Gamma	Gamma
RCA.Doc.33	C	Doc	Methods and Tooling	Describes the methods and tools used for developing the RCA specification.	-	N	-	-
RCA.Doc.34	C	Doc	RCA Roadmap	Overview planned development for RCA.	-	Y	Gamma	Gamma
RCA.Doc.35	A	MB	RCA System Architecture (merged): System Def, System Reqs, Sys Arch, Domain knowledge		2,4,5	N	-	DS
RCA.Doc.36	A	Dia	RCA Documentation plan - Annex	Visualisation of the documentation plan.	-	Y	Gamma	Gamma
RCA.Doc.37	B	Doc	Concept: RCA effects overview	Overview of potential the effects / benefits of an RCA-based system.	-	Y	Gamma	Gamma
RCA.Doc.39	C	Doc	RCA Change Control Management Process		-	N	-	-
RCA.Doc.40	D	Doc	RCA Architecture Poster	Diagram of the interface architecture of RCA.	-	Y	Alpha	Gamma
18E112	X	Doc	LWG: Railways Localisation System HL Users' Requirements	Provided by the Localisation Working Group of the EUG.	-	Y	Gamma	Gamma
19E100	X	Doc	LWG: Railways Localisation System Performance Requirements from Use Cases	Provided by the Localisation Working Group of the EUG.	-	N	-	-
RCA.Doc.41	C	Doc	Declaration of Intent by DB, NR and SBB	Public statement on contribution to RCA.	-	Y	Beta	-
RCA.Doc.42	A	Doc	RCA Reference document list	List of important referenced documents (documents outside RCA).	all	N	-	-
RCA.Doc.43	B	Doc	Concept: Informal Architecture Overview	Provides an informal overview, until the MBSE-generated documents are officially published.	all	Y	Gamma	Gamma

Notes:

- This list will be extended over the course of RCA development.
- The column “Valid” indicates if this document is valid in the current release (i.e. available and not deprecated).
- “DS = Development snapshot” in the column “Latest Update” indicates, that the MBSE specifications will be made available as frequently updated snapshot, without being part of a specific release, until the first official baseline is achieved.
