

Official Bid of Bikepolo Vienna
with the support of the
Austrian Bikepolo Community

WHBPC 2019

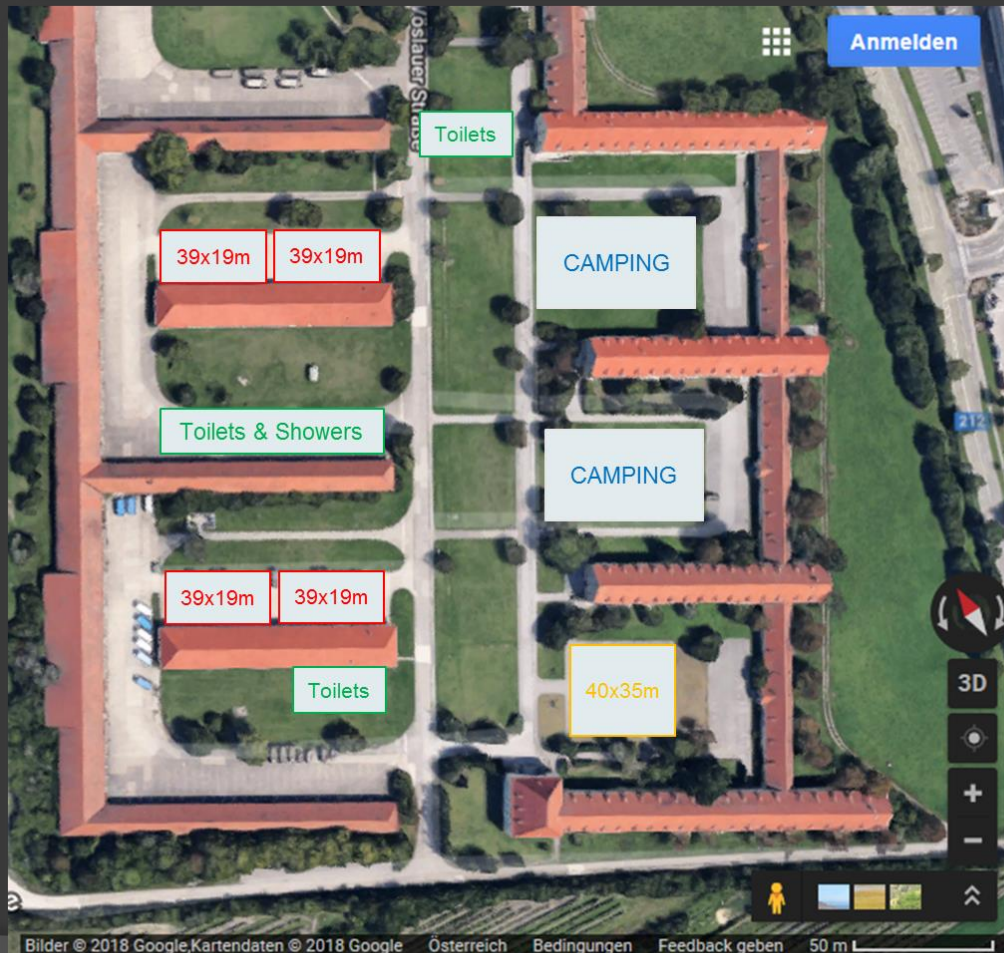

Travel to the center of Europe and go for the trophy

In the south of our great capital at the foothills of the Alps we found a nice spot to gather the Bikepolo community and fight for the title „World Champion“. Very well available from all over the world, Baden is a small city with a long tradition in climatic spa. So take a deep breath and go for Austria.

The location in detail

The Martinek army base was closed in 2013. It is now used as training facility for special forces and as film location.

This area of the base facilitates

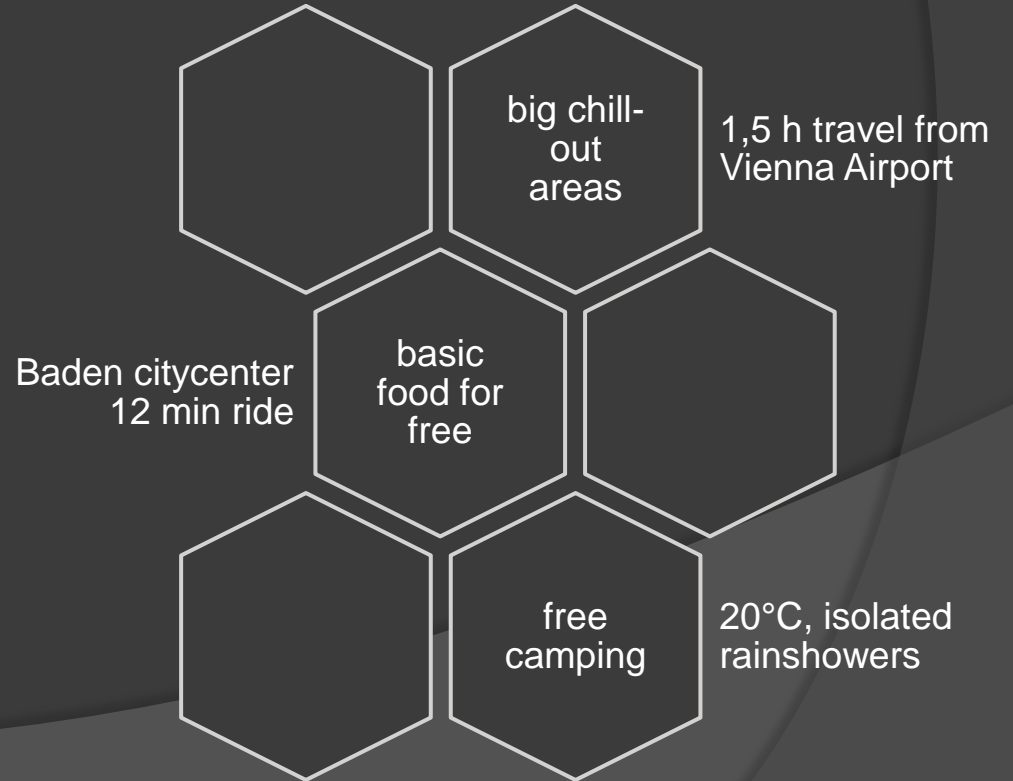

- **4 courts,**
- **1 warmup area,**
- **2 campgrounds &**
- **2 sleeping halls**

Depending on the sideevents and sponsoring we will use the central area for nutrition, chill out and party.

Live stream of at least 2 courts during the main event will be provided for the Bikepolo community.

Smooth concrete slabs with perfect seams and very good grip

WHBPC 2019 in Austria

Pros

- ⦿ **Amazing facility**
As the base has been closed for years, nature got its hand back on the facility – apart from the courts surface
- ⦿ **Motivated community**
It's not only Bikepolo Vienna, it's the Austrian BP community who will make this happen
- ⦿ **Experienced Crew**
Different professions (technics, event, management, graphics) with good networks

Cons

- ⦿ **Accessibility for spectators**
But we already have some ideas, e.g. critical mass ends here or organized cycling tour from Vienna to Baden
- ⦿ **No sports specific infrastructure**
Shouldn't be a problem at all as the surface is great and everything else can be placed
