November 2020 TexasAIM Action Period Call

The November Action Period Call featured a panel presentation on Maternal Early Warning Systems (MEWS). A link to the recording can be found [here](#).

October 2020 TexasAIM Action Period Call

The October Action Period Call featured a panel presentation from TexasAIM Faculty on sustaining the work of the OBH Bundle. A link to the recording can be found [here](#).

September 2020 TexasAIM Action Period Call

The September Action Period Call featured a panel presentation from hospitals and faculty on simulation, drills and debrief. A link to the recording can be found [here](#).

TexasAIM Safe Care for Every Mother

A program of the Texas Department of State Health Services

January 2020 TexasAIM Bonus Action Period Call: Case Development, Pulling Resources, & Debriefs for Obstetric Emergencies Webinar

This webinar features a presentation from Dr. Sarah Page-Ramsey on simulation including: case development, pulling resources, and debriefs. A link to the recording can be found [here](#).

January 2020 TexasAIM Action Period Call

The January Action Period Call featured a panel presentation on simulation, drills and debrief. A link to the recording can be found [here](#).

October 2019 TexasAIM Action Period Calls

The October Action Period Calls consisted of 5 cohort specific calls on topics identified in the Action Period 2 Status Survey. The links to the webinar records can be found below:

[Cohort 1: Multidisciplinary Review](#)

[Cohort 2: Huddles and Debriefs](#)

[Cohort 3: Multidisciplinary Review](#)

[Cohort 4: Huddles and Debriefs](#)

[Cohort 5: Multidisciplinary Review](#)

September 2019 TexasAIM Action Period Call

The September TexasAIM Action Period Call featured an interactive discussion on the various components of Reporting and Systems Learning. A link to the recording can be found [here](#).

August 2019 TexasAIM Action Period Call

The August TexasAIM Action Period Call featured a panel presentation on the various components of response. A link to the recording can be found [here](#).

July 2019 TexasAIM Action Period Call

The July TexasAIM Action Period Call featured a panel presentation on various components of recognition and prevention. A link to the recording can be found [here](#).

June 2019 TexasAIM Action Period Call

The June TexasAIM Action Period Call featured a panel presentation on various components of readiness. A link to the recording can be found [here](#).

March 2019 TexasAIM Action Period Calls

The March Action Period Calls consisted of 5 cohort specific calls on topics identified in the Action Period Status Survey. The links to the webinar recordings can be found below:

[Cohort 1: Emergency Response Team](#)

[Cohort 2: Debriefs & Huddles](#)

[Cohort 3: Debriefs & Huddles](#)

[Cohort 4: OB Hemorrhage Emergency Management](#)

[Cohort 5: OB Emergency Response Team](#)

February 2019 TexasAIM Action Period Call

The link to the webinar recording can be found [here](#). February's call featured a presentation on a team's journey to implementing simulations and drills and lessons learned along the way.

January 2019 TexasAIM Action Period Call

The link to the webinar recording can be found [here](#). January's call featured a presentation on a team's journey to implementing Quantification of Blood Loss (QBL) and lessons learned along the way.

Other TexasAIM calls:

TexasAIM Plus: PI Metrics 101 Webinar

The TexasAIM PI Metrics 101 webinar is for Plus teams. It provides a virtual tour of the PI data platform and a review of the five monthly PI metrics for AIM Plus hospitals. A link to the recording can be found [here](#).

TexasAIM Safe Care for Every Mother

A program of the Texas Department of State Health Services
TexasAIM Quality Improvement Basics Webinar

This webinar is for all TexasAIM participants and introduces quality and process improvement strategies to support implementation of the AIM Obstetric Hemorrhage bundle. The webinar is available [here](#).

AIM Data Portal and Basecamp Instructions Webinar

The webinar recording can be found [here](#). This webinar is for Key Contacts, Technical Leaders, and anyone else on your TexasAIM team that will be inputting data into the TexasAIM Portal. The webinar will discuss how to access the portal and Basecamp.

Gearing up for AIM, TexasAIM Plus Pre-work Webinar

This webinar for TexasAIM Plus participants reviewed TexasAIM Plus Obstetric Hemorrhage Learning Collaborative pre-work assignments. If your hospital is enrolled in TexasAIM Plus, it is highly recommended that at least one of your team members views this webinar if they did not attend. This webinar recording is available [here](#).

TexasAIM Informational Webinars

DSHS hosted a TexasAIM Informational Webinar providing an overview of the TexasAIM Initiative, including the differences between TexasAIM Basic and TexasAIM Plus, on March 28, 2018. A recording of the webinar is available [here](#). Texas Hospital Association hosted a follow-up TexasAIM Informational Webinar on May 8, 2018. A recording of the webinar is available [here](#).

Texas Collaborative for Healthy Mothers and Babies (TCHMB) Maternal Early Warning Systems (MEWS) calls and resources:

Visit [here](#) and [here](#) for TCHMB MEWS information and resources.

TCHMB: Introduction to Maternal Early Warning System (MEWS) Webinar (2018)

The Texas Collaborative Healthy Mothers and Babies (TCHMB) hosted an introduction to Maternal Early Warning Systems webinar. The recording and PowerPoint are available [here](#).

TCHMB: Maternal Early Warning Systems- Triggers and Notification (2019)

The webinar recording can be found [here](#). The objective of the webinar will be to demonstrate the components of MEWS in action. There will be recorded simulations from two hospitals that illustrate the recognition of the MEWS trigger, activation, bedside evaluation, documentation in the nurse flowsheet and physician progress note, and debrief.

MEWS Data Tracking & EHR Integration Webinar (2019)

This webinar discussed the suggested measures to track for MEWS implementation, various ways to find the data, including tools to help collect each measure, and possible ways to build MEWS into EHR systems. The recording can be found [here](#).

DSHS Grand Rounds: How MEWS Can Decrease Maternal Morbidity and Mortality in Texas

In this October 2019 [Texas Department of State Health Services Grand Rounds](#) seminar, Dr. Carey Eppes and Dr. Christina Davidson (Baylor College of Medicine) discuss maternal mortality in Texas, evidence supporting MEWS, MEWS components, challenges implementing MEWS, conducting a MEWS QI project, and integrating MEWS into the EHR. The recording can be accessed [here](#).
