

Scouting AmericaTM

National Capital Area Council

Welcome to the National Capital Area Council University of Scouting – Zoom Edition!

We are excited to have you join us for this virtual learning experience. This guide will help you navigate the training sessions, access essential resources, and ensure you have a smooth and productive experience throughout the event.

Accessing the Training

For the **Cub Scout College**, there are two designated Zoom rooms. Each room will have a **single Zoom link** that will remain active throughout the day. You will not need to log in and out between sessions, simply stay in the assigned room for your scheduled courses.

Each Zoom room will have a **dedicated moderator** who will help facilitate the sessions. Moderators will assist with collecting and relaying questions to instructors. If you have a question during a session, please **type it into the chat**, and the moderator will ask it on your behalf. To maintain an orderly learning environment, **all participant microphones will remain muted** throughout the training. This decision is based on valuable feedback from previous years, ensuring clear and uninterrupted instruction for all attendees.

Technical Requirements & Support

To participate fully, please make sure you have access to both **Zoom and Basecamp** before the training begins on **Saturday**. These platforms are essential for joining sessions and accessing course materials.

Important Notes on Technical Support:

- Technical support is **very limited** during the event.
- We **do not** have a dedicated help desk available for troubleshooting connection issues in real time.
- It is **your responsibility** to verify that you can access Zoom and Basecamp in advance.

- If you encounter issues, we encourage you to seek assistance **before** the training day. Please email christopher@cooper3000.com if you have any questions. Christopher will be unavailable during the training day, but he can try to assist you before Saturday.

Preparing for a Smooth Experience

To ensure a successful training experience, please take the following steps **before Saturday**:

- ✓ **Test your Zoom connection** – Ensure you can log in and join a meeting.
- ✓ **Familiarize yourself with Basecamp** – This is where training materials and resources will be available.
- ✓ **Check your internet connection** – A stable connection is essential for smooth participation.
- ✓ **Review the course schedule** – Know which Zoom room you need to be in for each session.
- ✓ **Charge your device or have a charger nearby** – Sessions run throughout the day.

We appreciate your cooperation in making this a successful and engaging virtual training event. If you have any general questions leading up to the training, please refer to the event communications or contact the appropriate event coordinator.

Thank you for being part of the National Capital Area Council University of Scouting – Zoom Edition! We look forward to a great day of learning and collaboration.

Basecamp will serve as the central hub for accessing handouts and other materials used throughout the University of Scouting presentations. You do not need an account to access these resources—simply use the provided [public link](#).
