Murphy Strikes!

The Philmont Experience

- Philmont enjoys a hallowed place in Boy Scout lore because it's a once-in-a-lifetime experience (no matter how many times you have been there)
- There are three parts to the Philmont experience:
 - The Preparation
 - The Trip
 - The Memories, Pictures and Stories
- Preparation is the foundation to build excitement and the skills for success—enjoy all three parts!

Philmont is TOUGH

- Elevation – 6,500 to 12,500 feet
- Rugged, Mountainous Terrain
(Sangre de Cristos = the Southern Rockies)
- Desert Southwest – Can be very dry and dehydrating
- Backpacking between 50 and 100 miles over 10 days,
with packs weighing between 35 and 65 lbs

YOU are the LIMFAC

- Limfac is short for "limiting factor", often used by military personnel to describe the weakest or least efficient part

Physical Fitness Goals

- **Strength** – Hike 8 – 10 miles with a full pack
- **Endurance** – Hike 8 – 10 miles a day with a full pack—
for 8 – 10 days
- **Resilience** – Remain “physically strong” and “mentally
awake” when that Irishman Murphy makes
an appearance

The best way to take care of soldiers was to build standards and procedures into a routine until predictable things worked smoothly. That gave leaders the ability to focus on the unpredictable as needed.

Overweight? What To Do

- If you are within 10% of the maximum weight, you are putting your and your crew's trek at high risk
- There are three proven ways to make a change:
 - Diet (what you eat)
 - Portion control (how much you eat)
 - Exercise (how you burn calories)
- They are simple, but not easy

It is not the mountain we conquer, but ourselves.

Shakedown Hikes / Campouts

- Shakedown hikes / campouts provide three key opportunities for the crew:
 - Mechanics: learn and master basic skills for Philmont (the Philmont way) in the field
 - Melding: your crew for Philmont is often a mix of patrols—learn to work together as a team
 - Mileage: Scouts (and many adults) lack multi-day long mileage hiking with packs at altitude
