# Making the switch: Connexion Browser to WorldShare Record Manager

**Valerie Chase**

Library Services Consultant, Cataloging and Metadata

Connected services

# Metadata and cataloging

---

**Improved capacity brings greater efficiency** for libraries, allowing you to concentrate on the needs of researchers, students, and faculty.

Make the switch to

WorldShare®  
Record Manager

WorldShare Record Manager is a modern, web-based cataloging solution that supports all the workflows you're accustomed to with Connexion® browser, plus so much more.

**We're discontinuing Connexion browser on 30 April 2024.**

Record Manager is already included in your cataloging subscription, so we encourage you to begin your transition today. We will continue to support the Windows-based Connexion client, so users of the locally installed software can continue to use Connexion client for their cataloging workflows.

[Get started with Record Manager](#)

# OCLC Cataloging and Metadata Subscription

Tools to expand the library's impact by increasing efficiency through automated processes and registering your collections in WorldCat

---

**Connexion<sup>®</sup>**

# • OCLC Cataloging and Metadata Subscription

Tools to expand the library's impact by increasing efficiency through automated processes and registering your collections in WorldCat.

## Cataloging tools

 WorldShare® **Record Manager**

Connexion®

## Create custom solutions

- Z39.50 Cataloging
- WorldCat Metadata API
- WorldCat knowledge base API
- WorldCat Registry API

## Metadata automation tools

 WorldShare® **Collection Manager**

- WorldCat data sync collections
- WorldCat cataloging partner collections
- WorldCat updates
- WorldCat query collections
- WorldCat knowledge base collections

# What you can do in Record Manager

- Search WorldCat Bibliographic and Authority files
- Edit WorldCat Records
- Set and Delete Holdings
- Export records Bibliographic, Authority, LHRs
- Create new WorldCat Records
- Replace WorldCat Records
- Compare WorldCat Records
- Access MARC field help
- Use Save in-Progress
- Create and edit LHRs
- Create and edit LBDs
- Use Record Work lists
- Create and apply field strings and constant date
- Print labels
- Control headings
- Create/Edit authority records (NACO)
- Set user preferences

# OCLC cataloging application comparison

## OCLC cataloging application comparison

Create new WorldCat® records one at a time for print and electronic items to make your library's rare and distinctive items discoverable. Save time by enriching and sharing existing records, setting and deleting your library's holdings, and exporting WorldCat records for local use. Choose the service that best meets the needs of your unique library.

# Cataloging and Metadata community

The screenshot shows the OCLC Community Center interface. At the top, there are navigation links for OCLC, Support, Research, Community (highlighted), Developer, and WebJunction. On the right, there are links for FAQ, a notification bell, and a profile icon. Below the navigation is a breadcrumb trail: Community > Welcome > Product Communities > Knowledge Communities > Events > Recordings > Ideas. The main content area has an orange background with a circuit pattern and the title "WorldShare Record Manager". A search bar is present with a dropdown menu set to "All community" and the text "Search all content". Below the search bar, there is a breadcrumb trail: OCLC Community Center > Product Communities > WorldShare Record Manager, and a link for "Manage subscriptions". A row of five icons represents different community features: Discussions (297 POSTS), News (304 POSTS), Events (6 POSTS), Recordings (15 POSTS), and Ideas (232 POSTS). A welcome message box on the right says "Welcome to the WorldShare Record Manager community!".

## Features:

- Discussion forum to talk about a variety of cataloging topics
- Release Notes
- Latest news on Connexion, Linked Data, and much more
- Event listings (including access to recordings)

Join the community at  
<http://oc.lc/catcommunity>
