

AROGA®

BRAIN & NERVE SUPPORT

WELLNESS BEGINS WITHIN®

The brain and nerves are responsible for controlling all of our body's movements and responses by transmitting signals to and from different parts of the body. The brain is the control center for these signals and the nerves transmit these signals throughout the body. These signals travel very fast and the responses are usually very short-lived. The brain and nerves also serve a major role in who we are as a person.

The body is designed to stay healthy. When our body's cells become old or damaged, they must be repaired or, if repair is not possible, replaced by young, healthy cells. Apoptosis, and its associated pathways, is the process by which the cells that make up our bodies are either repaired, or, if repair is not possible, are removed so that they can be replaced by new, healthy cells. These processes (repair, removal, rejuvenation) take place every minute of our lives, and are necessary for optimal health.

Aroga Pathways Plus Brain and Nerve Support provides foods, not normally found in the modern Western diet, required for the entire nervous system to be rejuvenated and function optimally.

Each capsule (all-vegetable) of Aroga Pathways Plus Brain and Nerve Support is based on cutting-edge cellular science, and consists of 100% plant-based food, contains no fillers or binding agents and is manufactured in the USA.

INGREDIENTS

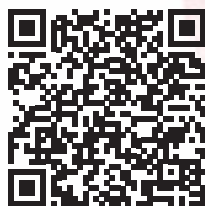

Ashwagandha Root Powder
 Garcinia Cambogia Powder
 Gotu Kola Powder
 Astragalus Root Powder
 Bacopa Monnieri Powder
 Kudzu Root Powder
 100% Vegetarian Capsule

One Time \$75.00	RV: 73 CV: 73
Monthly \$60.00	RV: 58 CV: 58
