

# CTC-RI PCP-Specialist Oversight Subcommittee

Aim: To improve coordination and alignment between primary care physicians and specialists through a multi-pronged statewide approach

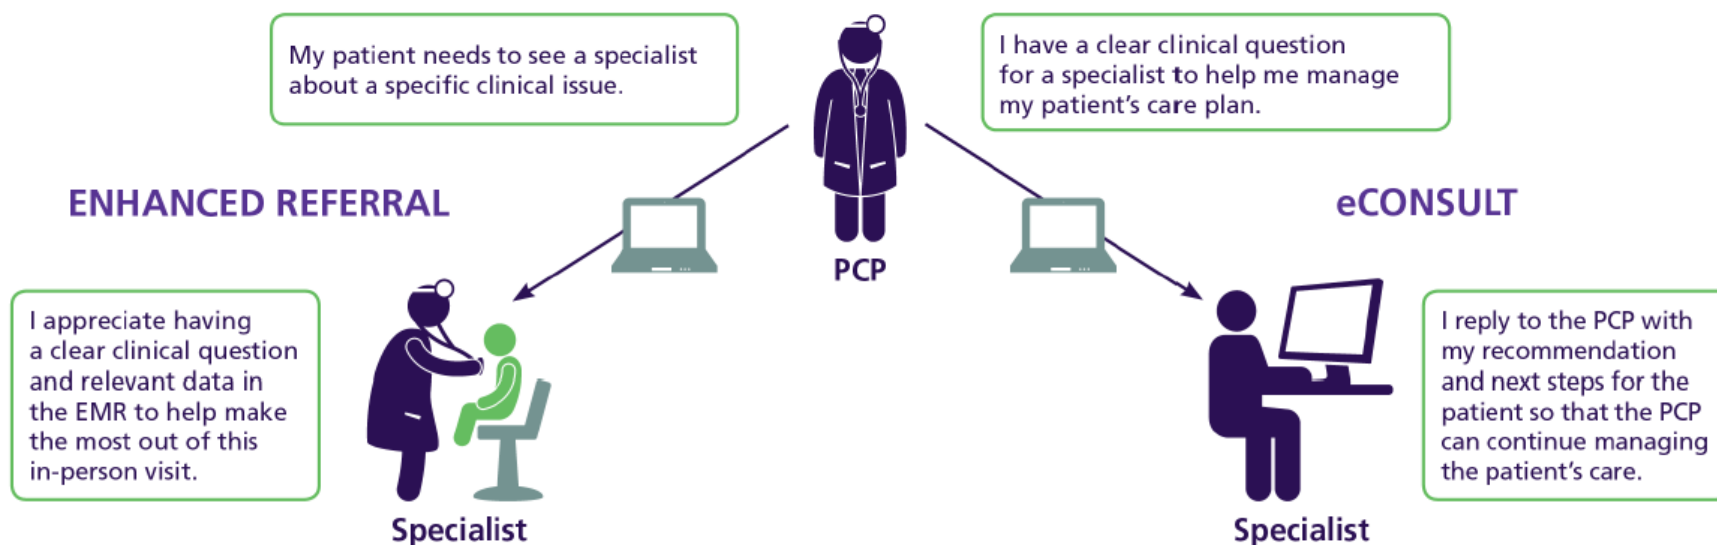

## Goals:

- Redesigning the referral process to achieve optimal access, quality, cost and satisfaction
- Promoting coordination and standardization
- Boosting patient experience, access and engagement
- Adopting platforms (e-consults), technologies
- Rebalancing place of service for target diagnoses
- Improving health equity
- Adopting and sharing best practices
- Establishing appropriate utilization targets and goals
- Enhancing primary care comprehensiveness

Chairs: Cathy Newman, BCBSRI  
John Minichiello, Integra

# The CORE Model

CORE®

**IMPLEMENTATION STRATEGY** to engage providers and establish a culture of collaboration between PCPs and specialists leading to increased standardization in care delivery
