

INTERNATIONAL ORGANISATION OF VINE AND WINE

UNDERSTANDING THE OIV

WHO WE ARE, WHAT WE DO,
HOW WE DO IT, HOW YOU CAN
CONTRIBUTE, AND MORE ...

FIVS-OIV Private Sector Meeting
7 October 2024

● Introduction to the OIV

- 🌐 A Brief History of the OIV
- 🌐 The vision and mission of the OIV
- 🌐 Member states of the OIV
- 🌐 Observers

● Essential Functions of the OIV

- 🌐 Function 1: Standards for the Vitivinicultural Sector
- 🌐 Function 2: Research and Publication
- 🌐 Function 3: Databases, Statistics, and Sector Information
- 🌐 Function 4: Education and Communication

● How the OIV Operates

- 🌐 Structures of the OIV
- 🌐 The OIV Decision Making Process
- 🌐 Relationship with key IGOs

2-The vision of the OIV

The global reference for vine and wine

The aim of the OIV to be the authoritative international reference body within its field of competence.

The OIV's mandate is scientific and technical. Its works draw upon the physical and biological sciences as well as social sciences, law and economics.

Across all of its works, the OIV seeks to establish common points of reference, agreed by all member states, to support the development of the vine and wine sector.

3-The mission of the OIV

Information: to inform its members of measures whereby the concerns of producers, consumers and other players in the vine and wine products sector may be taken into consideration

Cooperation: to assist other international organisations, both intergovernmental and nongovernmental, especially those which carry out standardisation activities

Harmonisation: to contribute to international harmonisation of existing practices and standards and, as necessary, to the preparation of new international standards in order to improve the conditions for producing and marketing vine and wine products, and to help ensure that the interests of consumers are taken into account

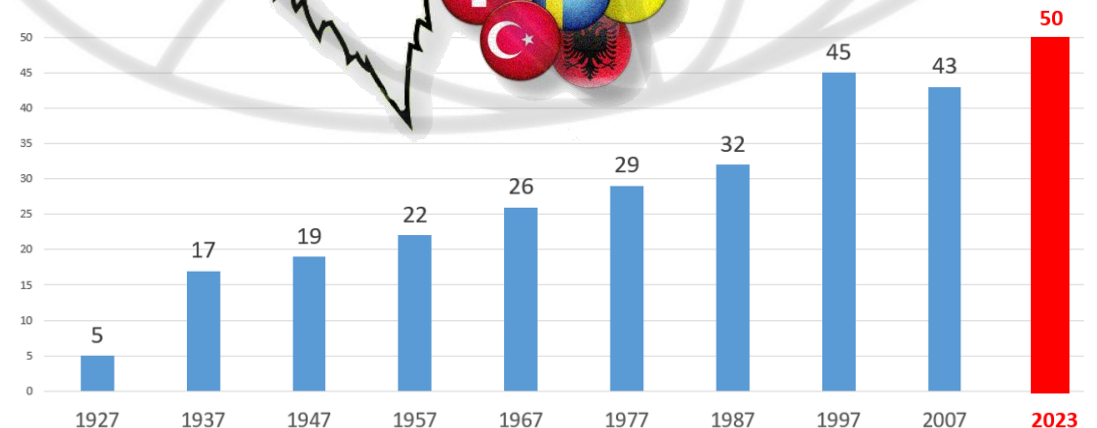

4-Members states of the OIV

The OIV is currently comprised of 50 member states across five Continents who have recognised, through membership in the OIV, the importance of collaboration and harmonisation in the vitivincultural sector.

- 75% world's vineyard area
- 88% of global production
- 71% of the consumption of wine in the world

International collaboration provided through the OIV is increasingly important as more than two out of five bottles consumed in the world are imported.

5-Observers to the OIV

Observer status can be granted to non-member sovereign states, international organisations, regions or territories of the world.

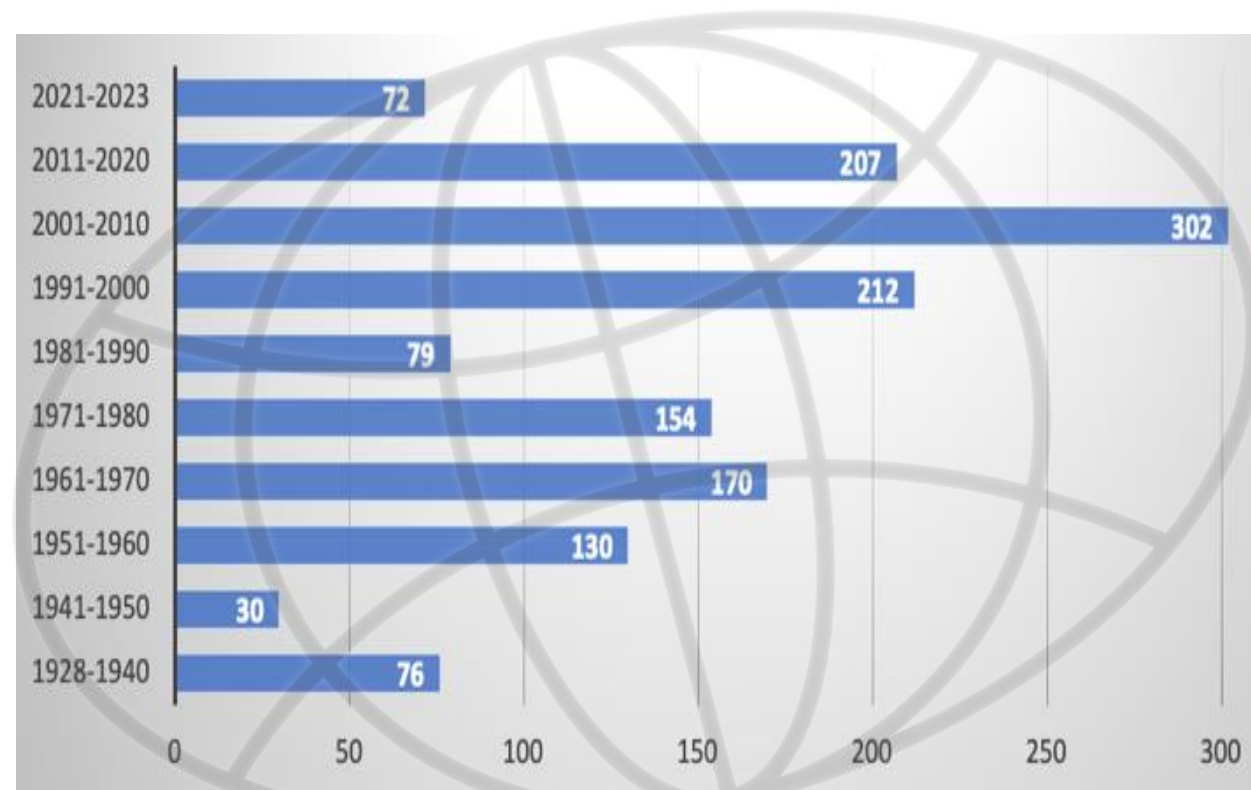

The 17 current observers including:

- 1 Intergovernmental Organisation
- 3 territories
- 13 International Non-Governmental Organisations

1-Standards for the Vitivinicultural Sector

- The principal function of the OIV is the creation of internationally harmonised and accepted standards for the production of vitivinicultural products. These standards cover the entire production process and product lifespan, from the plantation of vines to the labelling of final containers.
- This work provides consistent international production standards for products of viticultural origin to ensure their international acceptance.
- Standards are adopted by consensus by OIV member states.
- These documents are not binding legal documents but rather, an agreed upon set of international norms to which member states adhere to. The resolutions serve as a reference point for individual governing bodies to build the legal framework within their unique states.

1432 Resolutions adopted
Number of resolution by decade

1-Standards for the Vitivinicultural Sector

- **STANDARDS FOR VITICULTURAL AND OENOLOGICAL PRACTICES**

Standards, definitions, and guidelines regarding viticultural practices with focuses on the identification and protection of vines.

Standards of oenological (winemaking) practices for the production of products of viticultural origin.

- **WINEMAKING PRODUCT INFORMATION**

Specifications of the main products used in the making and the aging of wines.

- **METHODS OF ANALYSIS**

Accepted analytical methods for grapes, musts, wines, vinegars, and distilled products.

1-Standards for the Vitivinicultural Sector

- **LABELLING GUIDELINES**

International standards for labelling products of viticultural origin.

- **WINE AND SPIRIT COMPETITION STANDARDS**

Basic guidelines for wine and spirit competitions around the world.

- **GOOD-PRACTICE GUIDELINES**

Additional guidelines and standards which enhance knowledge and harmonisation in specialised areas.

2-Research and Publication

- **INNOVATION THROUGH RESEARCH IN VITIVINICULTURE**

The OIV strives to work with its international network of experts to contribute to innovation and advances in the vitivinicultural sector. Within this framework, the OIV has placed emphasis on certain subjects which are considered to be at the forefront of the sector for the foreseeable future.

- **SUSTAINABILITY OF VITICULTURAL PRODUCTION**

The OIV undertakes research on all aspects of sustainability – environmental, economic, social and cultural.

- **HEALTH AND SAFETY**

The OIV aims to help protect the health of consumers and to contribute to food safety in the industry

2-Research and Publication

- **Collective Expertise for the Sector**

The OIV publishes documents, compiled by OIV experts, on certain themes and which represent the general consensus at a given time but are not presented as standards.

- **Sensory analysis of wine**
- **Sampling of wines and must intended for analysis**
- **Greenhouse Gas accounting in viticulture**
- **Grapevine trunk diseases**

2-Research and Publication

Within the framework of developing its Strategic Plan, the OIV grants research scholarships in priority programme fields on a yearly basis.

Grants offered within the framework of this programme are either 3-year or short-term research grants (six to fifteen months at most) and are provided for specific post graduate training programmes.

For the second time, the Consortium of international companies (Familia Torres from Spain, Masi Agricola from Italy, Moët & Hennessy from France, Sogrape from Portugal, Viña Concha y Toro from Chile and Yalumba Family Winemakers from Australia) is contributing, in addition to the OIV's contribution, enabling the provision of different types of research grants.

2024 OIV Research Grant Program Registration Form

- **Deadline:** 31 March 2024
- **Contact:** job@oiv.int

Application forms must be filled out and sent to this email address

3-Databases, Statistics and Sector Information

● Databases

The OIV maintains working databases through its partnerships and relationships in the vitivinicultural sector to inform and assist member states, observers, and the worldwide sector. These are kept up to date via our contacts in official offices who provide the latest information from their countries and areas of expertise.

- Vine varieties database
- GI/AO Database Report

3-Databases, Statistics and Sector Information

● Statistics

The OIV is responsible for the collection and dissemination of a variety of statistical data on all main products derived from the vines, including wine, table grapes and dried grapes. The organization provides free and unrestricted access to its database and data visualization tools. Through these products, the OIV works to ensure that high-quality and internationally comparable data are produced and made accessible to all countries, thus contributing to building a comprehensive knowledge base on the vine and wine sector.

Thematic focuses

- Sparkling Wine (2014)
- The Rosé wine market (2015)
- Table and dried grapes (2016)
- The distribution of the world's grapevine varieties (2017)
- Industrial Use of Wine (2019)
- The global sparkling wine market (2020)
- The world organic vineyard (2021)
- Evolution of world wine production and consumption by colour (2023)

3-Databases, Statistics and Sector Information

● Sector Information

Each year a member state of the OIV, along with the OIV, invites and hosts scientists and researchers from around the world to present and share their findings and results.

Presentations made during the Congress are based on a scientific or academic paper and are chosen for relevance and excellence. Works are then published in open access.

More than 800 scientific articles are currently available via this system.

4-Education and Communication

● OIV Awards

Since 1930, every year, the OIV Awards Jury presents awards to the best vitivinicultural books published in the past two years which have been submitted by the authors or publishers.

4-Education and Communication

● OIV Master of Science in Wine Management

Contrary to generally single discipline multiple sector managerial specializations, the international OIV diploma is unique, examining the sector's many facets throughout the curriculum. This program is therefore open exclusively to future managers and decision makers in the wine sector. The program spans 18 months, with 30 modules focused on specific themes and a host region which is studied and visited.

OIV MSc in wine management

4-Education and Communication

- **OIV International Ampelography Course**
- **Blockchain applied to the vine and wine sector**
- **Sustainable water and soil management for resilient viticulture**

1-Structure of the OIV

- Elected Leaders of the OIV

The OIV operates with two distinct, yet interconnected, types of organs, scientific/technical and governance. These are all led by officials of the OIV elected by the Members States

- President of the OIV
- Director General of the OIV
- Presidents of Commissions and Sub-Commissions

1-Structure of the OIV

- **Working bodies of the OIV**
- General Assembly
- Executive Committee (Comex)
- Scientific & Technical Committee (CST)
- Steering Committee
- Commissions & Sub-Commissions
- Groups of Experts
- e-Working Group

CST -OIV SCIENTIFIC AND TECHNICAL COMMITTEE

President: Luigi Moio (IT)
1st Vice President: Regina Vanderlinde (BR)
2nd Vice President: Markus Herderich (AU)
Director General: John Barker (NZ)

I. Viticulture

VITI
President: Ahmet Altindisli (TR)
Vice President: Vittorino Novello (IT)
Scientific Secretary: Christoph Hoffmann (DE)

SCRAISIN

(Sub-Commission Table grapes, Dried grapes and Unfermented Products)

President: Luís Peres de Sousa (PT)
Vice President: Alejandro Marianetti (AR)
Scientific Secretary: Donato Antonacci (IT)

PROTEC

(Vine Protection and viticultural techniques)

President: Mario de la Fuente (ES)
Vice President: Serge Fischer (LU)
Secretary: Elisa Angelini (IT)

GENET

(Genetic resources and vine selection)

President: Elsa Gonçalves (PT)
Vice President: Laurent Mayoux (FR)
Secretary: Luigi Bavaresco (IT)

SUSTAIN

(Sustainable development and climate change)

President: Hans Schultz (DE)
Vice President: Jacques Gautier (FR)
Secretary: António Graça (PT)

II. Oenology

OENO
President: Fernando Zamora (ES)
Vice President: Dominique Tusseau (FR)
Scientific Secretary: Valeriu Cotea (RO)

SCMA

(Sub-Commission Methods of Analysis)
President: Manuel Humberto Manzano (AR)
Vice President: Markus Herderich (AU)
Scientific Secretary: Ana Maria Ruano (ES)

MICRO

(Microbiology)
President: Antonio Morata (ES)
Vice President: Cristina Pino Villar (MX)

TECHNO

(Technology)
President: Valérie Lempereur (FR)
Vice President: Adriaan Oelofse (ZA)

SPECIF

(Specifications of Oenological Products)
President: Antonella Bosso (IT)
Vice President: Fernanda Spinelli (BR)

III. Economy and Law

ECO LAW
President: Yvette van der Merwe (ZA)
Vice President: Dimitar Andreevski (BG)
Scientific Secretary: Antonio Seccia (IT)

DROCON

(Law and consumer information)
President: Alberto Ribeiro de Almeida (PT)
Vice President: Theodore Georgopoulos (GR)

FORMAT

(Training)
President: Conrad Briguet (CH)
Vice President: Pascal Wegmann Herr (DE)

BOISPI

(Vitivinicultural spirituous beverages)
President: Simona Lamorte (IT)
Vice President: Jeanine Bretagne (FR)

ECOMAR

(Economic analysis, markets and consumption)
President: Françoise Brugière (FR)
Vice President: Gergely Szolnoki (DE)

STATCO

(Situation and Statistics)
President: Patrick Aigrain (FR)
Vice President: Tiziana Sarnari (IT)

IV. Safety and Health

SAFETY & HEALTH
President: Pierre Louis Teissedre (FR)
Vice President: Gheorghe Arpentin (MD)
Scientific Secretary: Patrizia Restani (IT)

SECUAL

(Food Safety)
President: Angelika Paschke Kratzin (DE)
Vice President: Victoria Moreno Arribas (ES)

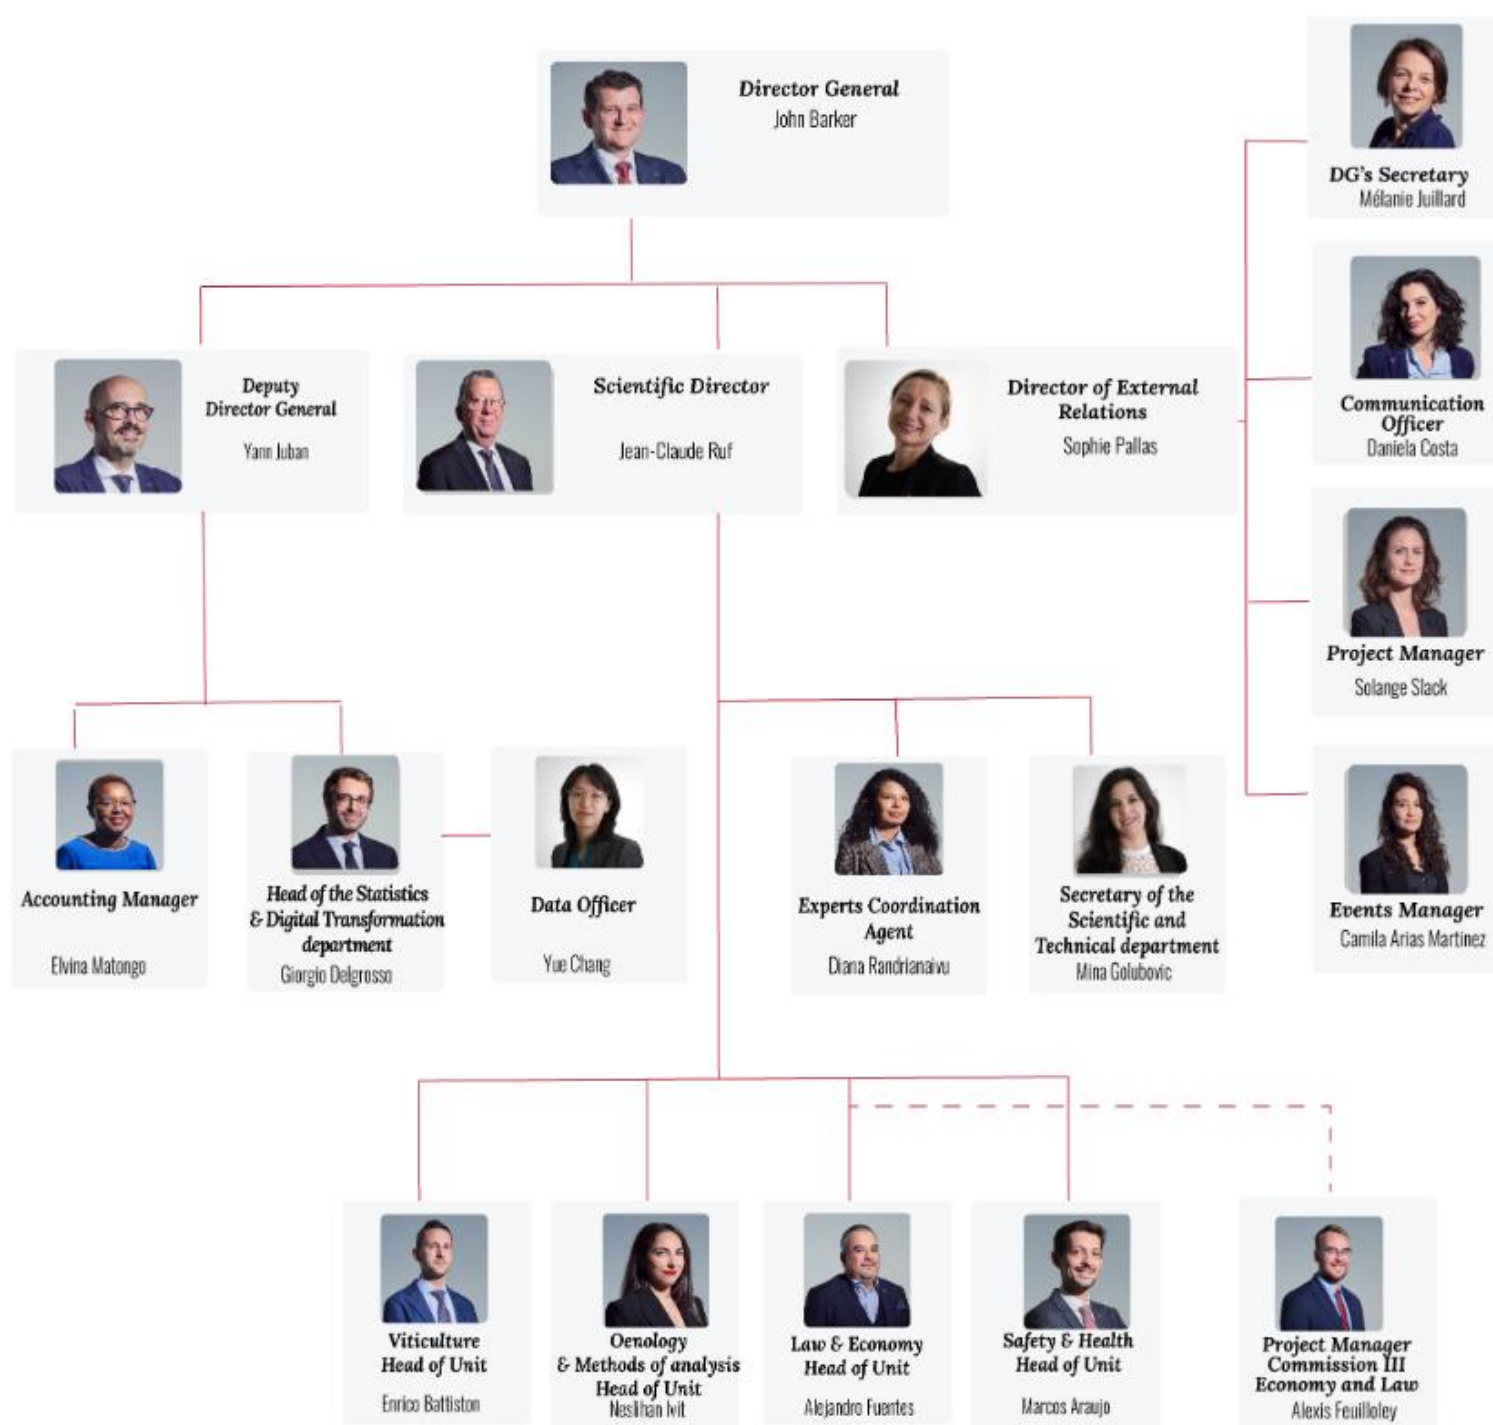

CONUSA

(Consumption, Nutrition and Health)
President: Rena Kosti (GR)
Vice President: Arina Antoce (RO)

QP
(Qualified Persons)
Tony Battaglione (AU)
Monika Christmann (DE)

III-How the OIV Operates

2-The OIV Decision Making Process

III-How the OIV Operates

- **Planning of Regulatory and Research Activities**
- The OIV Strategic Plan
- The OIV Annual Work Programme

2-The OIV Decision Making Process

- **Consensus and Step by Step Procedure**
- Consensus is the normal method whereby the General Assembly adopts draft resolutions of a general, scientific, technical, economic or legal nature.
- The process for collaboration and consensus required for a resolution to be accepted can be described using a system or progression of steps.
- Opportunities for member states to provide input on OIV resolutions under discussion are underlined with an explanation of the timeline for participation.
