Welcome!

- **NICE Strategic Plan/Goals**
- **About Augusta University**
- **Community Partners: Alliance for Cybersecurity Education**
- **GA K-12 Career Pathways/NICE Cybersecurity Framework**
- **Remote Access to University Cyber Virtual Labs**
- **White Hat Agreement**

NICE Strategic Plan/Goals

Goal #2: Nurture a Diverse Learning Community – Strengthen education and training across the ecosystem to emphasize learning, measure outcomes, and diversify the cybersecurity workforce

- *Objective 2.1: Improve education programs, co-curricular experiences, and training and certifications*
- *Objective 2.3: Inspire cybersecurity career awareness with students in elementary school, stimulate cybersecurity exploration in middle school, and enable cybersecurity career preparedness in high school*
- *Objective 2.5: Facilitate the development and dissemination of academic pathways for cybersecurity careers.*

AUGUSTA
UNIVERSITY

ACADEMIC PROFILE

145+
student organizations

10
133 academic programs
9 Schools & Colleges

5,137
Undergraduates

2,802
Grad/Professional

595
Residents

Total Applicants **9,433**

Total Admitted **3,819**

1,648
Undergraduates

737
Grad/Professional

female students **61%**

male students **39%**

1,872
degrees conferred

first year retention **75.1%**

freshmen progression **52%**

\$107.6M
sponsored support

\$248.1M
grant submissions

\$15.9M
F&A costs

996
publications

Campus Locations in:

- ★ Augusta
- Albany
- Athens
- Columbus
- Macon
- Rome
- Savannah

Clinical Teaching Sites: **1,210**
Total Living Alumni: **56,000+**

1,661 faculty

1,110 FT **551** PT

92% with terminal degrees

About Augusta University...

- One of four research universities in Georgia
- State's only public Academic Health center
- Become a leader in cybersecurity education and training
- Home to Hull-McKnight Georgia Cyber Training and Innovation Center

JULY 2017:
School of Computer and Cyber Sciences

Achieved Designation as a Center of Academic Excellence in Cyber Defense (CAE-CD)

AUGUSTA UNIVERSITY
Cyber Institute

2016 - 2021

Less than 250 universities nationwide have the CAE-CD designation

The BS in Computer Science program is accredited by the Computing Accreditation Commission of ABET, <http://www.abet.org>.

AUGUSTA UNIVERSITY

SCHOOL OF COMPUTER AND CYBER SCIENCES

Offering academic programs in Computer Science, Information Technology, and Cybersecurity

Undergraduate Programs

- BS in Computer Science
- BS in Information Technology (IT)
- BS in IT with a concentration in cybersecurity
- Future BS in Computer Science with a concentration in Cyber Ops
- Cyber Defender/Advanced Cyber Defender Certificate

Graduate Programs

- Master in Information Security Management
- Health Security Certificate

Current
Enrollment
over 400/
200 cyber

Augusta – Location, Location, Location

DOD Neighbors

- NSA Georgia
- Cyber Center of Excellence (Cyber CoE)
 - Cyber School
 - Signal School
- Joint Force Headquarters - Cyber (JFHQ-C)
- Cyber Protection Brigade
- Future home of US Army Cyber Command (ARCYBER)

Mission & Membership

Aiken Technical College

Augusta Technical College

Augusta University

Augusta Metro Chamber of Commerce

CSRA Alliance

Columbia County School System

Columbia County Chamber of Commerce

Fort Gordon

Richmond County School System

- ACE founded to facilitate the creation of a community-based cybersecurity niche to raise the effective value of the 6-12 educational system and its integration into post-secondary education.
- ACE seeks to increase area students' capabilities, generate an employable cybersecurity workforce, and position the CSRA as a resource and partner to the NSA/Cyber COE/Ft. Gordon in cybersecurity expertise.

Deliverables

- Foster teacher/faculty-preparedness programs relative to cybersecurity curriculum.
- Identify and appropriate technology resources to support cybersecurity curriculum.
- Achieve certification for cybersecurity curriculum.
- Develop branding for the ACE consortium, including a marketing and communications plan.
- Identification of potential industry and education partners.
- Develop an advisory board with community partners to provide guidance and oversight to ensure mutual benefits in the future.

Introduction to Digital Technology

- **Identify, describe, evaluate, select and use appropriate technology.**
- **Understand, communicate, and adapt to a digital world.**
- **Explore and explain the basic components of computer networks.**
- **Use computational thinking procedures to analyze and solve problems.**
- **Create and organize web pages through the use of a variety of web programming design tools.**
- **Design, develop, test and implement programs using visual programming.**
- **Describe, analyze, develop and follow policies for managing ethical and legal issues in the business world and in a technology-based society.**

Introduction to Cybersecurity

- **Fundamental principles of networking (wired/wireless), local area networks (elements, perimeter networks, IP addressing, access methods and topologies), client-server/peer-to-peer networking models, and wide area networks.**
- **Fundamental principles of the Open Systems Interconnection Model, Internet Protocol IPv4 and IPv6, and common networking services to include Name Resolution Techniques.**
- **Work with the basic & advanced command prompts.**
- **Network infrastructures and network security.**
- **Fundamental components of cybersecurity.**
- **Employ host system and application security.**
- **Implement proper security administration.**
- **Implement proper access controls & identity management.**
- **Basic principles of cryptology.**

- **Concepts of sound cyber practices, legal, and ethical decision making.**
- **Concepts of malware threats.**
- **Analyze and react to various threats and vulnerabilities.**
- **Advanced principles of cryptology.**
- **Advanced communications/wireless security techniques.**
- **Implement organizational security techniques.**
- **Implement contingency planning (incident response and disaster recovery) techniques.**
- **Perform security and testing and evaluation.**
- **Implement risk management techniques.**
- **Work with advanced methods of cybersecurity.**

12th Grade Internships

- **Military Organizations (e.g., NSA)**
- **Government Organizations (e.g., DHS)**
- **Financial Institutions**
- **Medical Institutions**
- **Energy Institutions**
- **Cybersecurity Providers**

GaDOE Cybersecurity Pathway Targets

Securely Provision	Information Assurance Compliance	Software Assurance & Scty Eng	Systems Security Architecture	Technology Research & Development	Systems Requirements Planning	Test & Evaluation	Systems Development
Operate & Maintain	Data Administration	Knowledge Management	Customer Service & Tech Support	Network Services	Systems Administrator	Systems Security Analyst	
Oversight & Development	Legal Advice & Advocacy	Strategic Planning & Policy	Education & Training	Info Systems Security Operations	Security Program Management		
Protect & Defend	Computer Net Defense Analysis	Incident Response	CND Infrastructure Support	Vulnerability Assessment & Management			
Analyze	Threat Analysis	Exploitation Analysis	All-Source Analysis	Targeting			
Operate & Collect	Collection Operations	Cyber Operational Planning	Cyber Operations				
Investigate	Investigations	Digital Forensics					

Achievements to Date

- ✓ Created Cybersecurity (Curriculum) Pathway for Georgia High Schools.
 - Curriculum approved by the Georgia Board of Education in Spring 2015
 - Curriculum offered Fall 2015
 - Richmond County: Academy of Richmond County, Technical Career Magnet School, and Hephzibah High School.
 - Columbia County: Lakeside, Greenbrier, and Grovetown High Schools.

- ✓ Conducted Training for HS Teachers

- ✓ Allowed Remote Access to AU Virtual Lab to enhance cybersecurity learning for four high schools
 - Richmond County: Academy of Richmond County, and Technical Career Magnet School.
 - Columbia County: Greenbrier and Lakeside High Schools.

Technical Overview

Technical Overview

- Accessing Augusta University's Cybersecurity Virtual Lab.
 - Available to our supported High Schools via an HTML 5 compatible web browser. Such as Firefox, Google Chrome, or Safari on a Mac or PC.
 - We provide 24 simultaneous connections for each of our High Schools and support over 300 students from both Richmond County and Columbia County.
 - Available 24 hours a day for our teachers and during class time for students.
- Supporting our High School Teachers and Students.
 - We provide teachers with training videos and documentation on how to utilize our virtual lab. This includes creating student accounts, enrolling students in courses, and creating lab reservations.
 - Augusta University provides on-going IT support.

NETLAB+

NETLAB+ is a remote access solution developed by Network Development Group (NDG) that allows academic institutions to host IT equipment, virtual machines, and custom courseware.

➤ NDG has over a decade of experience and partnerships with the following organizations:

- The Center for Systems Security and Information Assurance (CSSIA) uses NETLAB+ to facilitate hands-on cybersecurity competitions.
- The National Cyber League (NCL) utilizes NETLAB+ to support cyber competition stadiums.

Technical Overview Cont.

➤ VMware ESXI Cluster:

- 80 Physical CPU Cores at 2.30 GHz with Hyper-Threading support.
- 1.53 TB of Memory (RAM)
- 19.6 TB of RAID 5 local storage.

➤ Storage Network for VM Traffic:

- 40 TB of redundant storage configured in RAID 5 for virtual machine storage.
- Redundant 10 GbE SFP+ network switches.

➤ Dedicated Internet Connection

- Completely isolated from Augusta University's Enterprise network.
- 50 Mbps of dedicated network bandwidth.

NISGTC Security+

➤ Overview:

- Students gain hands-on practice in the skills needed to secure a network.
- Aligns with CompTIA Security+ Certification.

➤ Content:

- 5 Virtual Machines.
- 16 Lab Exercises.

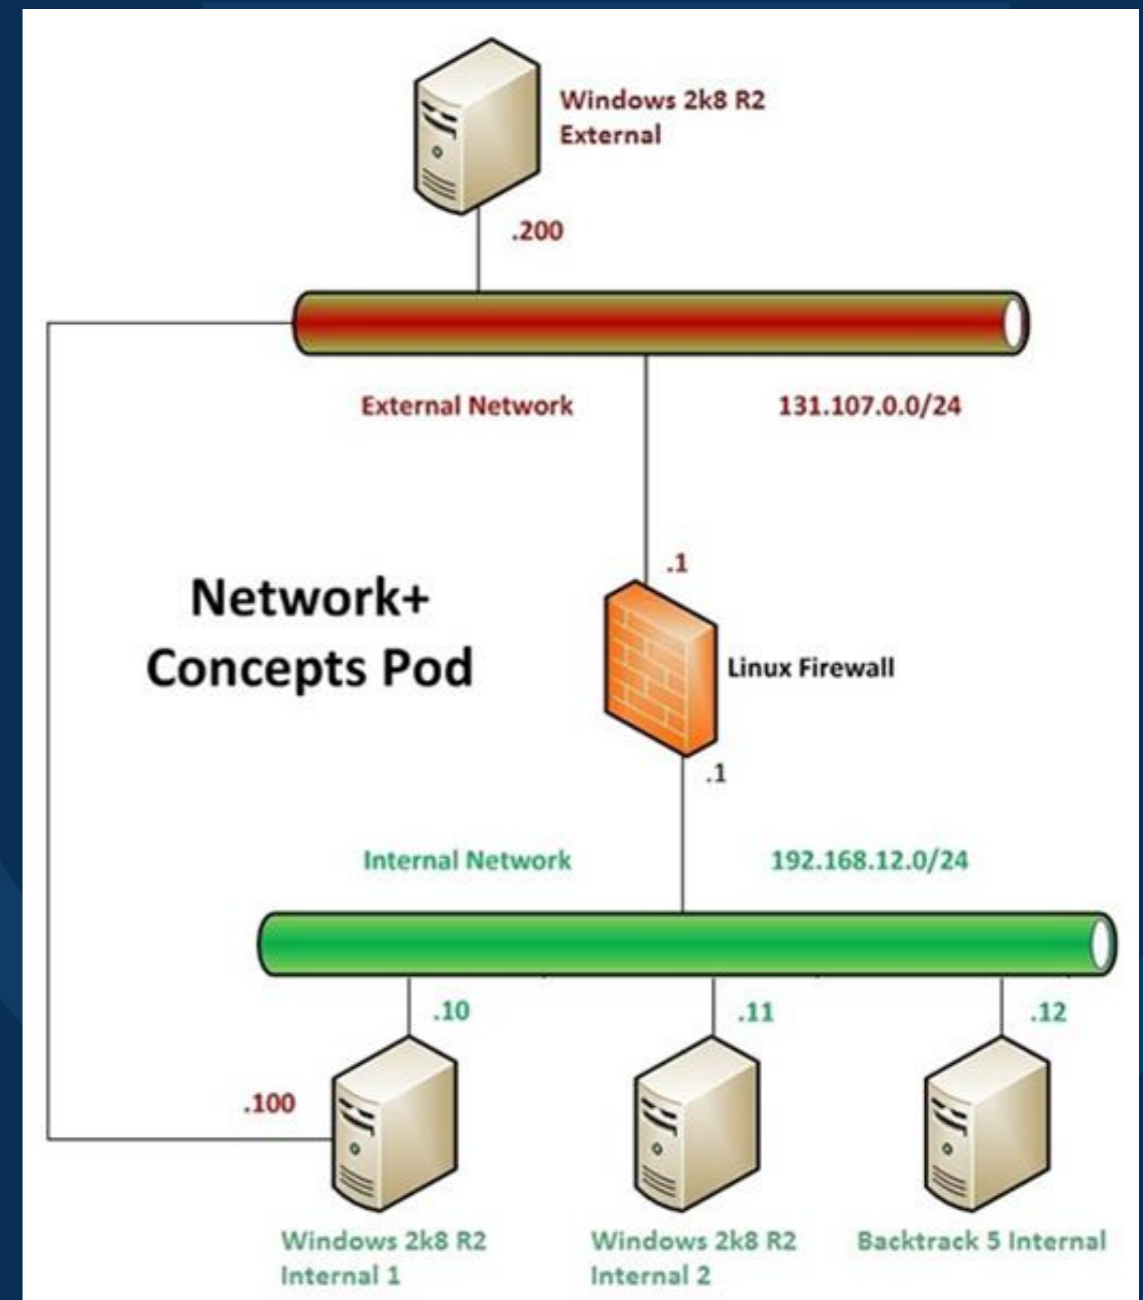

NISGTC Network+

➤ Overview:

- Students learn key skills to troubleshoot, configure, and manage a network.
- Aligns with CompTIA Network+ Certification.

➤ Content:

- 5 Virtual Machines.
- 12 Lab Exercises.

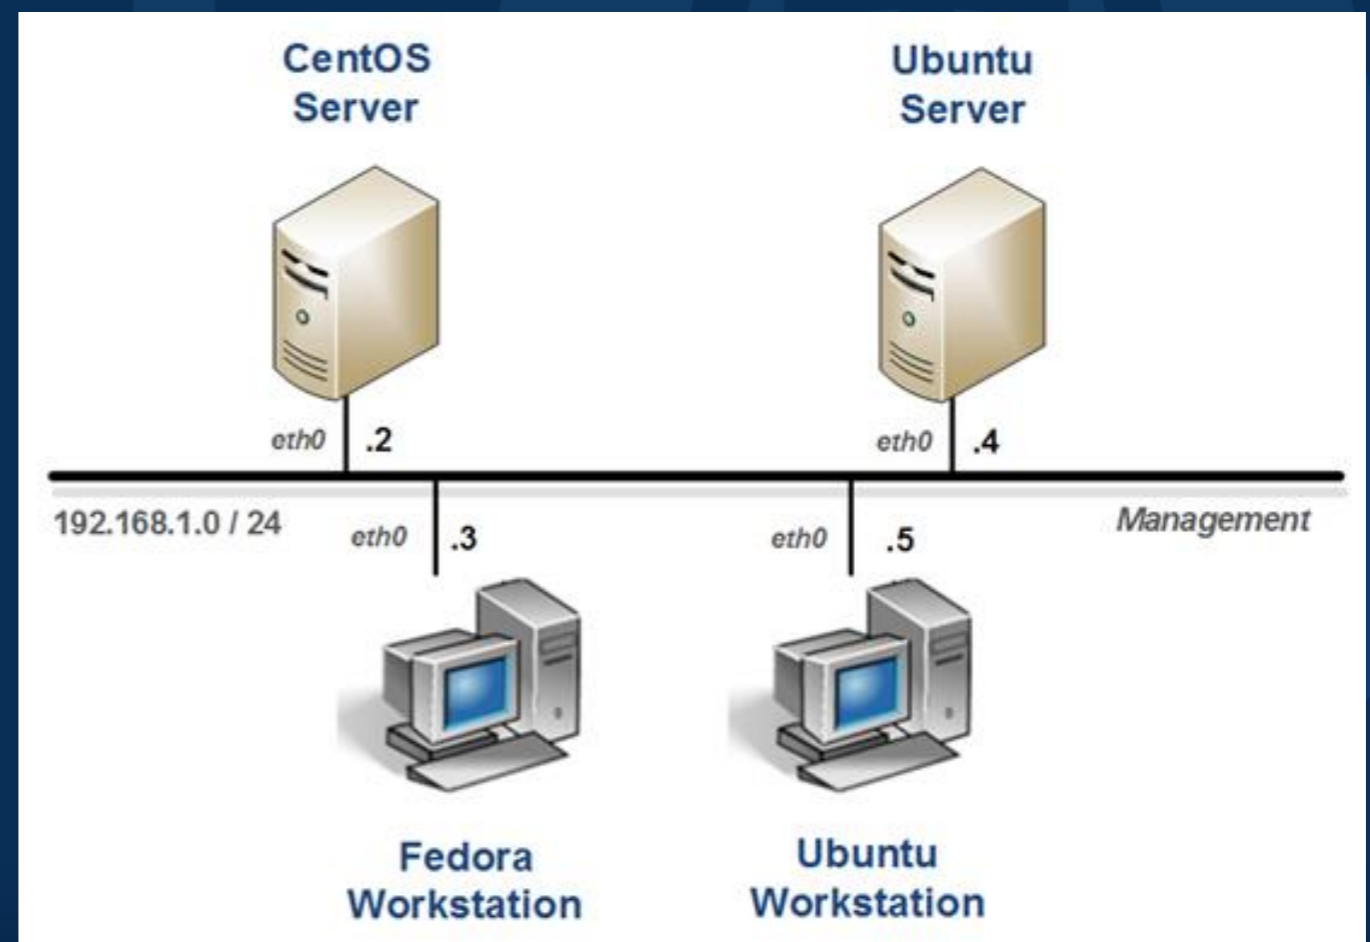

NISGTC Linux+

➤ Overview:

- Students gain hands-on practice in the skills needed to configure, manage, and troubleshoot Linux systems.
- Aligns with CompTIA Linux+ Certification (LPIC-1).

➤ Content:

- 4 Virtual Machines.
- 22 Lab Exercises.

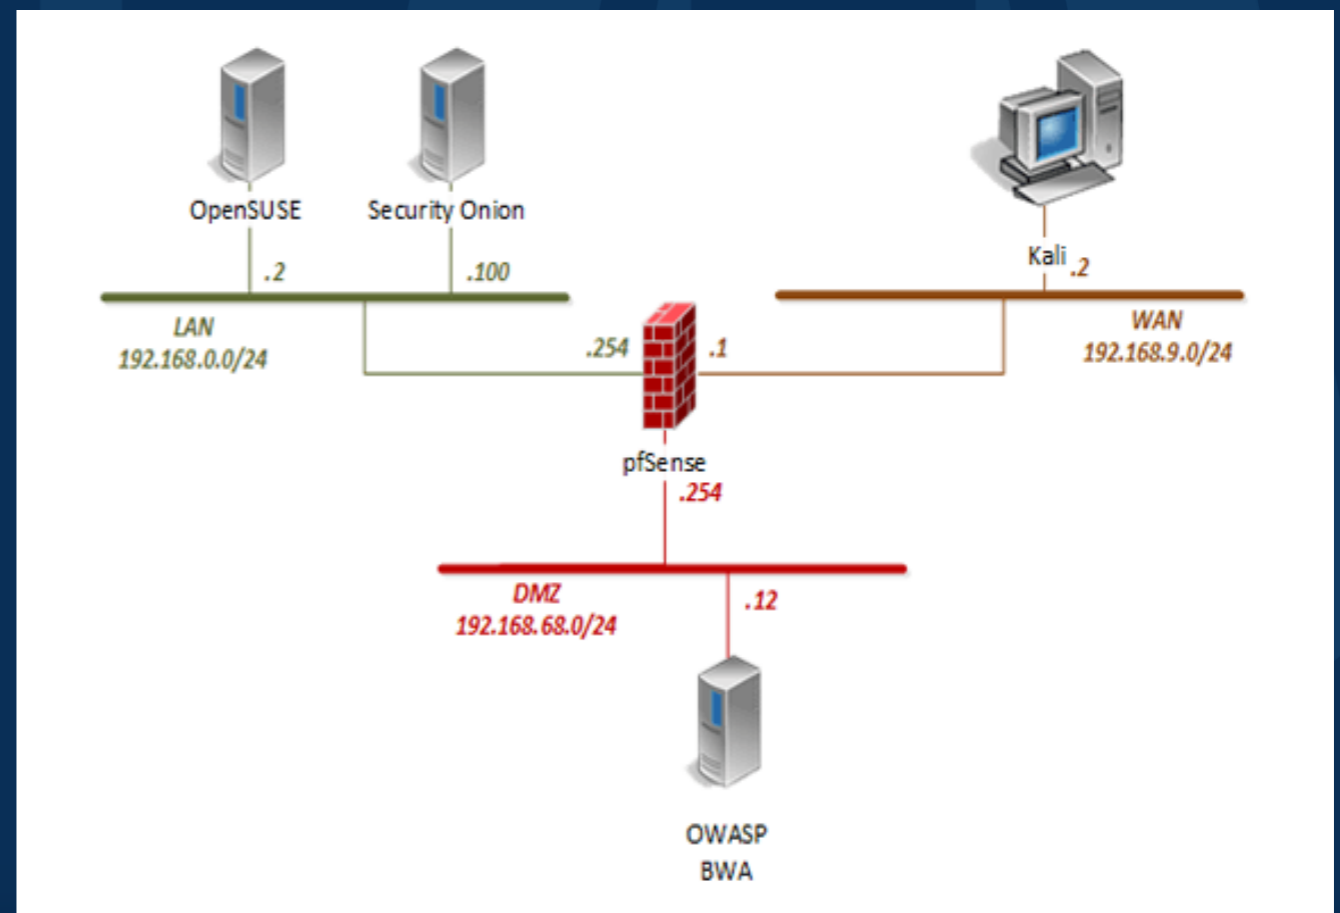

NDG Ethical Hacking

➤ Overview:

- Students gain hands-on practice conducting a variety of ethical hacking techniques.
- Prepares students for a variety of IT positions, including: Cyber Security Analyst or Penetration Tester.

➤ Content:

- 5 Virtual Machines.
- 20 Lab Exercises.

NICE Cybersecurity Workforce Framework

WORKFORCE FRAMEWORK CATEGORIES

Investigate	Oversight & Development	Protect & Defend	Operate & Maintain	Securely Provision	Analyze	Collect & Operate
Digital Forensics 	Information Systems Security Operations 	Computer Network Defense (CND) Analysis 	Customer Service and Technical Support 	Information Assurance Compliance 	Exploitation Analysis 	Cyber Operation Planning
		CND Infrastructure Support 	Data Administration 	Systems Security Architecture 	Threat Analysis 	Cyber Operations
		Incident Response 	Network Services 	Test and Evaluation 		
		Vulnerability Assessment and Management 	System Administration 			
			Systems Security Analysis 			

WORKFORCE FRAMEWORK SPECIALTY AREAS

CompTIA and NICE:

Setting the standard for safe cyber practices

The National Initiative for Cybersecurity Education (NICE), sponsored by the National Institute of Standards and Technology (NIST), is a partnership between the U.S. government, academia, and the private sector focused on cybersecurity education, training, and workforce development. The NICE Workforce Framework provides an easy way to classify cyber workers by describing cyber work roles across work categories.

CompTIA Certifications like A+, Network+, Security+ and CASP are updated regularly to focus on key cyber job roles and best practices, and are well-aligned to the NICE Workforce Framework. With CompTIA credentials, government employees can verify their cyber knowledge and skills and also fulfill government directives like FISMA and DoD 8570/8140.
