

General Event Parameters:

1. Levels are based on the skaters' highest skating skills test passed (standard, adult 21+ or adult 50+).
2. A skating skills competition event will consist of the skater performing two skating skills patterns.
3. The patterns to be skated depend on the season the competition is held. Seasons run from July 1 of the listed year through June 30 of the following year. The skater will perform the two patterns listed for their level, based upon the date of the competition. If the competition falls over two seasons (for example, June 30 – July 2), the patterns will be selected based on the start date of the competition listed in the announcement. The pattern numbers (i.e. pre-bronze 1) refer to the patterns for the adult tests (i.e. adult pre-bronze 1).
4. Each skater will complete both of their required patterns consecutively in the order listed, pausing briefly in between.
5. The host club may choose to play background music, at a low volume, at their discretion.
