## About the Minority Faculty, Administrators & Practitioners Forum

We would like to thank our sponsors Colgate-Palmolive, National Dental Association Foundation (NDAF), and the American Dental Education Association (ADEA). We welcome our members, educators, oral healthcare providers, administrators, students, staff, and guests to the 2021 Minority Faculty, Administrators, and Practitioners Forum. This year we are happy to be a part of the DDS initiative and will receive welcomes from the Presidents of the three pillar organizations (HDA, NDA, and SAID) for this conference. Keeping with the theme of the Conference, "Multi-Cultural Health Summit II "Shaping our Future", we are excited to elevate the topics of Access, Equity, and Inclusion (AEI) in dental education, who's Missing at the Table, and how DentaQuest is investing in improving oral health outcomes through innovative partnerships and projects.

## About the Minority Faculty, Administrators & Practitioners Research Forum

We want to thank Colgate-Palmolive and NDAF for sponsoring the Minority Faculty, Administrators and Practitioners Research Forum. Our program "Structural Racism and Oral Health Research" is an effort to reveal areas of causes and effect. The session will be moderated by Dr. George Taylor. We will receive welcoming words from the Director of NIDCR, Dr. Rena D' Souza. As a prelude to the panelists we have a segment on "The Howard-Meharry Adolescents Caries Study" to set the stage for our panelists. To guide our audience and panelists discussion, we have Dr. Caswell Evans to moderate as our four distinguished panelists share their individual experiences as researchers and how they have approached the problem of Access, Equity, and Inclusion from a research perspective in diverse populations.

## Thank You to our Sponsors and Supporters!
