# Use of Artificial Intelligence in Pharmacy Education

Virtual Institute
January 22–24, 2025

www.aacp.org/2025AIinstitute

The virtual Artificial Intelligence (AI) Institute will be held January 22–24, 2025, to help attendees explore the fundamentals of AI in education and how to implement educational tools within the curriculum.

American Association of
Colleges of Pharmacy AACP
Pharmacists Help People Live Healthier, Better Lives.

AI Institute Objectives:

- Describe key components and principles of AI educational strategy.
- Develop practical approaches to using AI as an educational tool.
- Identify key ethical considerations surrounding the use of AI as an educational tool.
- Demonstrate the use of AI tools within different tracks in the curriculum (pharmacy practice and pharmacy science, experiential education and skills lab, administrative tasks).
- Design a plan to implement educational tools using AI within your curriculum based on various tracks related to education and practice.

Institute Highlights:

- A panel of patients sharing firsthand experience of AI use and the impact of AI on patient care.
- Four distinct tracks to choose from didactic, experiential education, skills lab, and administration.
- Experts share fundamentals to utilizing AI as an educational tool and practical application strategies.
- **Your participation in the virtual vendor fair!**

What is a Virtual Institute?

The virtual institute, hosted on Zoom, is a model AACP uses multiple times each year to engage between 300–400 AACP members with educational programming and application activities around a specific topic. The virtual institutes are popular for our members and are highly engaging 2½-day online events.

Who attends the Institutes?

AACP encourages any faculty member, students, administrator, or staff person to attend. This institute will be particularly impactful for faculty and staff involved in curriculum and assessment committees, experiential education directors, administrators and staff. We encourage teams to include the perspectives of students! Check out the Institute agenda and FAQs for more information.

AI Institute Virtual Exhibit Opportunities

Virtual Vendor Fair Exhibit Levels:

	Engaged $1,000 Limit: 6	Educational $600
Logo and brief description on the AI Institute webpage	●	●
Registration and post-event attendee lists	●	●
Recognition on slide during screen breaks and Zoom waiting room	●	●
One link to collateral (PDF, product highlight, video etc.) on the event resources page	●	●
Complimentary registration (value: $499) to the full Institute	2	1
Opportunity to make short introductory remarks before the Vendor Fair begins	●	
Breakout room during the AI Institute Virtual Vendor Fair Engaged exhibitors will be assigned a breakout room that serves as their "virtual booth."	●	

The **American Association of Colleges of Pharmacy** (AACP), founded in 1900, is the national organization representing pharmacy education in the United States.

Pharmacy is the third largest health profession—after nursing and medicine—with more than 300,000 clinicians practicing in community-based practices, hospitals/health systems and many other healthcare settings.

AACP is comprised of **143 colleges and schools** with pharmacy degree programs, including more than **6,400 faculty**, **62,500 students** enrolled in professional programs and **5,100 individuals** pursuing graduate study.

AACP provides member services, including meetings and events, webinars, continuing education, publications, reports and searchable directories for faculty, speakers and grants. AACP also works to promote the profession of pharmacy and the value of pharmacy education to audiences beyond the academic community.

The **mission of AACP** is to advance pharmacy education, research, scholarship, practice and service, in partnership with members and stakeholders, to improve health for all. We envision a world of healthy people through the transformation of health professions education.
